

Fall Protection
for Tools

Built for tools.

Introducing the 3M™ DBI-SALA® Hook2Hook Coil Tether with Swivel

Our patented Hook2Hook Coil Tether features a swivel hook, making tools like screwdrivers and wrenches easier to use. It is a tethering solution specifically designed for tools weighing up to 5 lb. (2.3 kg). With a relaxed length of 4 inches, and a stretched length of 62 inches, this tool lanyard stays out of the way when not in use. An extra-thick PU coating around the coil prevents kinking and allows the coil to retain its form. Suitable for use from holsters, belts, harnesses and tool pouches alike, the Hook2Hook Coil Tether is a versatile solution that is both resistant to heat and to sharp objects. Lightweight aluminum carabiners on either side of the extension feature locking screw-down nuts that cannot be removed.

For tools up to 5 lbs.

An industry-first innovation.

Compact design

Stays out of the way when not in use

Secure tools up to 5 lbs.

Specifically designed to tether tools weighing up to 5 lbs.

Coil tether

Vinyl-coated braided-steel coil

Self-locking aluminum carabiners

Automatically closes and prevents accidental opening

Ergonomic swivel

Reduces fatigue
