

GIFT WRAPPING IDEAS

WITH SCOTCH® EXPRESSIONS WASHI TAPE

BY CLEVER POPPY

Try the techniques below, then add ribbon, lace, paper doilies, flowers and bakers twine to add the finishing touch. You can also make gift tags by covering card with tape and then cutting out shapes and hole punching the top. Beautiful!

Bunting: Fold pieces of tape over string and press together, then cut v shapes at the bottom.

Wraps: Wrap tape around the package both ways, so that it crosses over. Layer tape this way.

Feathers: Fold tape over toothpicks, curve the top and bottom, then cut small v's down each side.

Christmas tree: Layer pieces of tape horizontally in a pyramid shape, then add a cut-out star and a vertical trunk.

Christmas lights: Cut small pieces of tape in an hour-glass shape, fold over string and press together.

Geometric christmas trees: Cut tape into triangles and stick into tree shapes.
