

Fall Protection
for Tools

Secured and ready to work.

3M™ DBI-SALA® Tape Measure Sleeves

Keep your tape measure securely by your side with the 3M™ DBI-SALA® Tape Measure Sleeve. Creating a secure attachment point for use at height, Tape Measure Sleeves are now available in two sizes: Medium (for most tape measures up to 25 feet) and Large (for most tape measures up to 35 feet).

Helps make tough jobs safer and easier.

Featuring an integrated D-ring, the 3M™ DBI-SALA® Tape Measure Sleeve can be tethered in a variety of ways to help protect it from accidental drops.

Versatile design: conforms to most tape measure shapes and sizes—up to 2 lbs. (0.9 kg).

Rugged durability: heavy-duty neoprene material withstands harsh environments.

Quick, easy attachment: simply clips on to your belt or holster (sold separately).

Tape Measure Retractor Holster

Make usage and holstering convenient with the Tape Measure Retractor Holster for a working length up to 52 in. (sold separately; Sleeve/Holster combinations available).
