

Vehicle Clean-Up Process

1		Inspect Interior Remove any trash from the vehicle and blow out the air vents. Vacuum the interior of the vehicle including the ashtray, seat folds and trunk. Inspect the carpet and upholstery for any heavily-soiled stains that may require a pre-spot treatment.
2		Pre-Spot Carpet and Fabric Use 3M™ All Purpose Cleaner and Degreaser to pre-treat any stains or heavily soiled areas on carpet or upholstery. Dilute the 3M™ All Purpose Cleaner and Degreaser at a 1:15 dilution ratio. Lightly brush the soiled/stained area.
3		Pre-Clean Exterior Apply 3M™ All Purpose Cleaner and Degreaser at a 1:15 dilution ratio to clean the engine, engine compartment, door jambs, wheels, tires and other hard to clean areas.
4		Rinse Vehicle Exterior Scrub, pressure wash, and rinse any areas where pre-cleaner was applied. Rinse the entire vehicle to remove loose dirt and debris.
5		Wash Vehicle Exterior Pre-soak any remaining bugs, soiled areas or compound residue using 3M™ All Purpose Cleaner and Degreaser at a 1:15 ratio. Wash the entire vehicle, then rinse. Dry, using a water blade or chamois as needed.
6		Apply Tire Dressing Dress the tires with a silicone-free tire dressing, being sure to remove the excess with an absorbent cloth.
7		Clean Interior and Glass Clean interior vinyl and leather using 3M™ All Purpose Cleaner and Degreaser at a 1:30 dilution ratio. Clean the interior and the exterior of the windows with glass cleaner. Use an extractor on carpet or fabric as needed.
8		Final Detail Apply a body shop safe spray detailer to the vehicle's exterior surfaces by misting on and wiping off. Spray detailer will remove any compound residue, dust or fingerprints and will also improve gloss.
