**Application Restrictions:**

1. Sleeves are for use with masts & accessories manufactured by Unique Concepts Ltd. **ONLY**.
2. System design factor depends on other system components and the configuration in which they are assembled. The minimum design factor for all standard UCL Safety Systems masts and accessories is 4:1.
3. If base material does not meet minimum requirements, reinforcement **MUST BE** added to meet minimum requirements.
4. Where required by regulation, each installation **MUST BE** approved to all applicable standards by a qualified engineer.
5. All equipment **MUST BE** set up and operated under the supervision of a competent person according to the manufacturer's instructions.
