

Pressure Sensitive Adhesive Double Coated Tapes for Automobiles

Technical Bulletin April 2020

3M tested the following adhesives to the Automotive OEM Spec: Nissan M8506 Pressure Sensitive Adhesive Double Coated Tapes for Automobiles. The results of the testing are provided in the following information. Adhesives not listed on this document have not been tested to this spec.

Automotive specification testing was performed on lab substrates and not on actual automotive production parts. Additional testing by the converter, tier or supplier is needed to show that parts and adhesives meet such specification. Please carefully read the automotive specification for further information.

Test	Test Condition / Environment	
	Storage	168 hours @ 40°C / 104°F
	Stability	
180° Peel adhesion 300mm / 12" per minute	Re-adhesion	Apply adhesive for 30 seconds; remove adhesive manually; re-apply same adhesive; roll with 4.5lb roller; dwell 24 hours @ room temp
Dynamic Shear 50mm / 2" per minute	Adhesive strength immediately after affixing	Dwell for 30 seconds @ 5°C / 41°F. Test at temperature Dwell for 30 seconds @ 23°C / 73°F. Test at temperature
Adhesive size	Room temperature	Dwell @ 23°C / 73°F for 24 hours.
(25mm / 1" square)	High temperature	24 hours @ room temperature and peel after 15 minutes @ 90°C / 194°F
	Heat aging	168 hours @ 90°C / 194°F
	Humidity aging	168 hours @ 50°C / 122°F and 95% RH

Technical Information

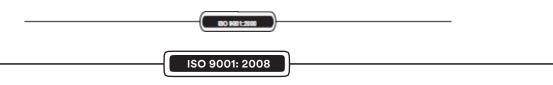

The technical information, guidance, and other statements contained in this document or otherwise provided by 3M are based upon records, tests, or experience that 3M believes to be reliable, but the accuracy, completeness, and representative nature of such information is not guaranteed. Such information is intended for people with knowledge and technical skills sufficient to assess and apply their own informed judgment to the information. No license under any 3M or third party intellectual property rights is granted or implied with this information.

Product Selection and Use

Many factors beyond 3M's control and uniquely within user's knowledge and control can affect the use and performance of a 3M product in a particular application. As a result, the customer is solely responsible for evaluating the product and determining whether it is appropriate and suitable for customer's application, including conducting a workplace hazard assessment and reviewing all applicable regulations and standards (e.g., OSHA, ANSI, etc.). Failure to properly evaluate, select, and use a 3M product and appropriate safety products, or to meet all applicable safety regulations, may result in injury, sickness, death, and/or harm to property.

Warranty, Limited Remedy, and Disclaimer

Unless a different warranty is specifically stated on the applicable 3M product packaging or product literature (in which case such warranty governs), 3M warrants that each 3M product meets the applicable 3M product specification at the time 3M ships the product. 3M MAKES NO OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR ARISING OUT OF A COURSE OF DEALING, CUSTOM, OR USAGE OF TRADE. If a 3M product does not conform to this warranty, then the sole and exclusive remedy is, at 3M's option, replacement of the 3M product or refund of the purchase price.

This Industrial Adhesives and Tapes Division product was manufactured under a 3M quality system registered to ISO 9001: 2008 standards.
