Description

Clinpro™ 5000 Anti-Cavity Toothpaste is a prescription-strength, 5000 ppm fluoride toothpaste. In addition to 1.1% sodium fluoride, it contains functionalized tri-calcium phosphate and offers low abrasivity. It is used once per day in place of the patient's usual toothpaste for caries prevention and has been shown to remineralize subsurface carious lesions. No additional step is required in the oral hygiene regimen. *Clinpro 5000* toothpaste is available in a 4-oz tube in vanilla mint, spearmint and bubble gum flavors.

Indication

- Caries prevention.

Clinical Tip

- Don't overload the brush with the paste, a little goes a long way.

"Only a small amount is needed for it to be effective."

Consultants' Comments

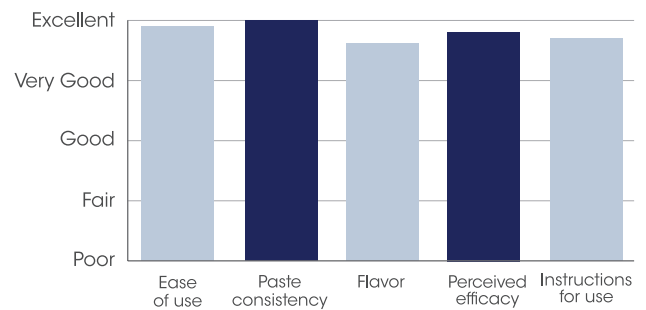

- "*Clinpro 5000 is smooth and creamy*"
- "*It foamed less than non-prescription strength toothpaste.*"
- "*My teeth and mouth feel really clean after using it.*"
- "*The vanilla mint flavor is refreshing.*"
- "*I love this paste.*"
- "*There seemed to be an aftertaste.*"
- "*I would like to see a version in a pump.*"
