3M Automotive Aftermarket

3M Blue Abrasives.
The upgrade you've
been waiting for.

Blue goes head to head with any abrasive in its class.

Best-in-class value leaves the competition in the dust — *literally*.

3M Blue Abrasive Multi-hole Discs are specially designed to improve anti-loading and boost dust extraction for improved productivity and a cleaner work environment. The multi-hole pattern captures dust, keeping the abrasive open for a faster cut and consistent performance throughout the life of the disc.

3M™ Hookit™ universal multi-hole pattern with alignment guide:

- Reduces loading for improved performance
- Improves dust extraction efficiency compared to 6 and 7 hole patterns
- Aligns with majority of dust extraction back-up pads

Go Blue for Body Repair.

Cuts fast with consistent results.

3M™ Blue Abrasives are engineered with a ceramic mineral blend that cuts through paint and body filler with consistent results every time.

Available in Hookit™ Attachment System.

3M™ Blue Abrasives can be used with Hookit™ attachments.

Get the job ready for primer!

Use 3M™ Blue Abrasives to featheredge around the repair area to finish the body work and get ready for paint prep.

Be sure to use 3M™ Filler and Glaze Products for best results.

3M Abrasive Disc Range.

3M™ Cubitron™ II Abrasives: For the Body Shop

3M™ Cubitron™ II 150mm Discs are 3M's highest performing abrasives and have a revolutionary advancement in automotive abrasive technology featuring triangular shaped ceramic mineral. As the triangular shaped grain wears, it continually fractures to form sharp points that slice through the substrate, wear evenly and provide extra-long life and consistency.

- Cuts 30% faster than premium abrasives
- Lasts up to twice as long
- Delivers finer, more uniform finish
- Requires less pressure

Best

3M™ Clean Sand™ Abrasives: For the Paint Shop

3M™ Purple abrasives are 3M's best performing class of abrasives. Power packed with 3M innovation these discs sand faster to improve technician productivity and reduce cycle time. The consistent finish you can count on, results in higher-quality repairs reducing rework.

These long-lasting abrasives reduce material consumption. The reusable 3M™ Hookit™ attachment system allows technicians to utilize the entire life of the disc, resulting in less shop waste.

3M™ Blue Abrasives

3M™ Blue Abrasives are 3M's newest edition to the mid/high performance tier and are designed to deliver best-in-class performance every day. 3M's engineered ceramic mineral blend delivers best in class cut and life specifically designed to improve anti-loading and boost dust extraction.

- Engineered ceramic mineral blend
- Anti-loading coating
- Upgraded resins

With a full range of grades designed to meet the modern body shop's needs, 3M Blue abrasives are the upgrade you've been waiting for.

Better

3M™ Gold Abrasives

3M™ Gold Abrasives are the standard that shops have turned to for quality, performance and durability for over 25 years.

Our Gold Abrasives are precision coated with high quality minerals and resins to deliver longer-lasting discs that cut through a variety of surfaces - including paint, primer, fiberglass, metal and SMC.

3M™ Gold Abrasives produce uniform, consistent finishes and are available in the Hookit™ attachment system for convenience and reuse. When job quality and productivity matter most, turn to the abrasives that shops have relied on year after year.

Good

3M Blue Abrasive.

Upgrade your old abrasive today.

With optimized abrasive technology, best-in-class cut performance and durability, and a complete abrasive line offering, Blue abrasives are the upgrade you've been waiting for.

3M gives you exactly what you need to simplify the repair process, achieve consistent results and improve your bottom line, every day.
