3M™ Cavity Wax Plus and Applicator Wand Kit

With today's ever evolving substrates being used in automotive construction, industry organisations and OEMs alike specify the use of cavity wax to prevent corrosion.

3M™ Cavity Wax Plus 08852

Non-hardening corrosion protection for internal cavities in a convenient aerosol can.

- ▶ Corrosion protection for inner body panels, frame rails and structural enclosures.
- ▶ Provides consistent and uniform protection for your repair by delivering the right amount of flow and wicking.
- ▶ Eliminates the inconvenience of decanting into dispensers.
- ▶ Provides access to inner body structures with tight tolerances.

3M™ Cavity Wax Plus Applicator Wand Kit 8851WK

Protect hard-to-reach places.

- ▶ Comes with three lengths to access hard-to-reach places.
- ▶ The 360-degree tip provides a uniform spray pattern to maximise coverage with each application.
- ▶ 20cm tube delivers a powerful stream of material to flood joints and seal them from corrosive elements.

Part no.	Size	Product	Case qty.
8851WK	20cm, 61cm and 86cm tubes	3M™ Cavity Wax Plus Applicator Wand Kit	12
08852	532ml aerosol	3M™ Cavity Wax Plus	4

1,500 hours salt spray results

Actual panel test results ASTM B117 1,500 hours.

Without protection

3M™ Cavity Wax Plus 08852 (3 coats)
