Approach of the UK group to risk management and governance arrangements in relation to UK taxation

At the highest level, responsibility for taxes resides with 3M's Global Tax Department based in 3M's headquarters in the United States. The Vice President, Tax & Real Estate reports to 3M's Senior Vice President and CFO, and sits on 3M's Finance Committee. The Tax Executive Committee, under the leadership and direction of the Vice President, Tax & Real Estate, has oversight over the material tax matters of 3M's worldwide business and supply chain.

In the UK, 3M UK ensures the appropriateness of its accounting and tax records on an ongoing basis to enable us to meet our compliance obligations. We document and confirm this to Her Majesty's Revenue and Customs (HMRC) annually in accordance with the Senior Accounting Officer (SAO) regime.

Day-to-day management of 3M UK's taxes are delegated to the UK Tax Manager. Processes relating to various taxes are allocated to the relevant process owners responsible for executing tax compliance controls. Appropriate training is carried out for staff who manage or process matters that have tax implications.

Attitude of the group to tax planning (so far as affecting UK taxation)

3M UK engages in tax planning that is aligned with its commercial business activities or supply chain needs, in compliance with UK tax rules and regulations.

We do not engage in artificial tax arrangements that lack economic substance, the sole purpose of which would be to obtain a tax advantage. We may, however, evaluate potential economic options resulting from business transactions with consideration of tax efficiency.

Transactions between 3M companies are conducted on an arms-length basis in accordance with appropriate transfer pricing rules. This ensures the group's profits are taxed where economic activities are performed.

Where there are any areas of uncertainty, 3M UK engages its external professional advisors to provide specialist advice as and when needed.

Level of risk in relation to UK taxation that the group is prepared to accept

Our approach to tax risk follows similar principles that apply to our management of legal, compliance, and other business risks. Our internal framework operates to support compliance with tax laws and regulations in the UK and to ensure we identify, assess and mitigate tax risks.

Approach toward dealings with HMRC

We strive to have an open, honest and collaborative working relationship with HMRC.

3M UK ensures that HMRC is kept aware of significant transactions and changes in the business and seeks to discuss any tax issues arising at an early stage.

When submitting tax computations and returns to HMRC, 3M UK discloses all relevant facts and identifies any transactions or issues where it considers that there is potential for the tax treatment to be uncertain.

We recognise that there could be areas of differing legal interpretations between us and HMRC, and where this occurs we will engage in proactive discussion to bring matters to as rapid a conclusion as possible.

Any inadvertent errors in submission of tax returns and tax computations to HMRC are fully disclosed as soon as reasonably practicable after they have been identified.
