

Fight Corrosion without Chrome.

Introducing 3M™ Scotch-Weld™ Structural Adhesive Primer EW-5005, meets key industry screening requirements and regulatory expectations

This high-performance, bond primer provides durable protection, promotes adhesion at the substrate interface and inhibits corrosion within and outside the bond line.

- ▶ For primary and secondary structure metal bonding
- ▶ Use on aircraft, rotorcraft, military platforms and more
- ▶ Compatible with 3M™ Surface Pre-Treatment AC-130-2
- ▶ Compatible with many adhesives, processes and cure cycles

Increased spray
transfer efficiency
over traditional
solvent based primer

Meets specifications. Exceeds your expectations.

3M™ EW-5005 protects and preserves surface preparation from corrosion.

Water based formulations help decrease exposure to emissions that occur with standard solvent based primers.
