3M™ Hi-Tack Composite Spray Adhesive 71 is your go-to high performance adhesive for dry lay up, closed mold infusion (RTM), and composite manufacturing.

Available in Green for visual control of adhesive coat weight.

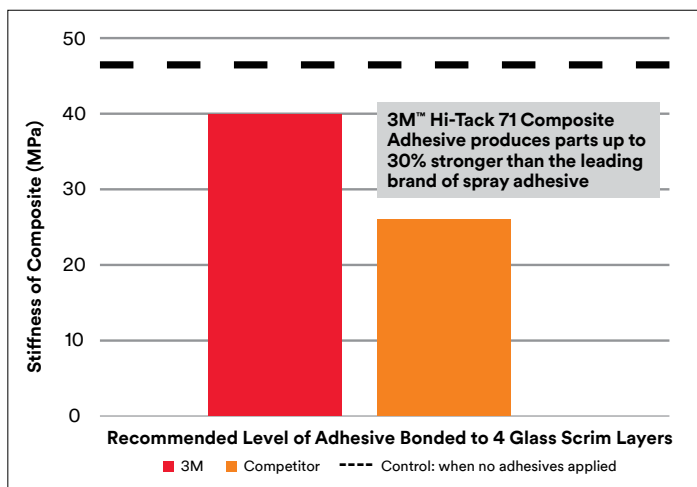

3M's experience in the industry has been proven for over 30 years and this new innovation is available now. During independent testing, 3M™ Hi-Tack Composite Spray Adhesive 71 did not slow resin migration or impede resin flow when sprayed at varying coat weights. When applied at recommended levels, the results were stronger parts.

Features and Benefits

- Specifically designed to optimize the ultimate strength of the composite part
- Does not impede resin flow—little to no intrusion in the infusion process
- Consistent fine mist spray pattern to eliminate chance of voids
- Compatible with Polyester, Vinyl Ester and Epoxy resins
- Compliant with VOC regulations within the United States; Meets CARB & OTC requirements
- Fast tack and high strength, excellent shear holding power
