Mobility. It’s critical to getting the job done, just like your fall protection. With the new 3M™ DBI-SALA® Sliding Beam Anchor, you can get the best of both worlds. Once you secure it to the beam using the redesigned adjustment buttons, simply connect your Self-Retracting Lifeline (SRL)* or lanyard to the swiveling D-ring and you’re ready to work. The anchor point slides effortlessly behind you.

Smooth operator.

* Use 3M™ DBI-SALA® Nano-Lok™ edge Twin-Leg Quick-Connect Self-Retracting Lifeline – Cable when tying off at feet.
**3M™ DBI-SALA® Sliding Beam Anchor**

**Applications:**
- Bridge work
- Buildings
- Warehouses
- Arenas
- Parking ramps

**Completely redesigned:**
- Versatile size ranges to fit a variety of beams
- Replaceable wear pads
- 360-degree swiveling D-ring anchor point
- Integrated dual ratcheting system
- High-strength, lightweight steel and aluminum construction
- 5,000 lb. (22 kN) strength and up to 420 lb. (189 kg) capacity

**Hands-free mobility**
360-degree swiveling D-ring optimizes your mobility on the beam.

**Rugged durability**
Corrosion-resistant construction meets ANSI standards for weather, environmental and storage conditions.

**Visible adjustability**
Dual ratcheting adjustment buttons are accessible above the beam, while locking mechanism is located on the side to reduce accidental engagement.

**Lightweight**
Compact size and lightweight materials.

**Easy pad replacement**
Snap-in design of wear pads allows them to be replaced quickly in the field.

**Compliant**
Meets ANSI Z359.18 Anchorage Connector standard; OSHA 420 lb./ANSI 310 lb. ratings.
