

3M Science.
Applied to Life.™

Airflow selection – delivering a world of comfort to you.

With user-selectable airflow rates, rugged construction and a comfortable design that will see you through the entire shift, the new 3M™ Versaflo™ Powered Air Turbo TR-600 helps provide durable protection in harsh environments.

#3MScienceOfSafety

The New 3M™ Versaflo™ Powered Air Turbo TR-600

Thanks to comprehensive research and an in-depth understanding of your needs, we created the most advanced, versatile solution yet. Simply put: It's designed to help make breathing and working easier.

Protection

The evolutionary 3M™ Versaflo™ Powered Air Turbo TR-600 delivers protection, comfort and performance with a lithium-ion battery, adjustable airflow options and an expanded range of filters for protection against hazards such as particulates, organic vapours and acid gases. All this, with the compatibility of the 3M™ Versaflo™ Respirator Systems family of products offering integrated protection for eye, head, face, skin and respiratory protection, depending on the headtop.

Versatility

Because every work environment presents a unique set of needs and challenges, customised solutions are a must. The TR-600 is designed to be compatible with multiple configurations of headtops, breathing tubes, batteries, filters and more. Choose a system configuration that meets your prioritised needs, addressing comfort, cost and performance.

Endurance

The 3M™ Versaflo™ Powered Air Turbo TR-600 is equipped with two battery options that are more efficient and intuitive than ever. TR-600 batteries have a long run time and short charging time, which ultimately reduce the user's downtime. The TR-600 battery has intuitive charge-level indicators and user interface to help make sure you're prepared and getting the most out of the battery.

- LED status lights for battery charge on both the battery and the turbo
- Low-battery warnings, including vibratory, audible and visual alarms
- Provides approximately 15 minutes of warning prior to automatic low-battery shutdown

Convenient ways to buy

Comfort

Our powered air respirator systems endure heavy use and long wear time. Workers need a system that keeps them comfortable and protected for their work day. The robust and ergonomically designed 3M™ Versaflo™ Powered Air Turbo TR-600 has been thoughtfully engineered to maximise comfort — even for the longest shifts.

- Multiple airflow rate options for user comfort
- Ergonomically designed to fit close to the body and allow for greater movement in tight work spaces
- Multiple belt size adjustments for proper fit and comfort
- Belt designed with flexible air channels to minimise heat buildup

Ease of Use

The 3M™ Versaflo™ Powered Air Turbo TR-600 features a user-friendly design with intuitive, coloured interactive touch points and vibratory, audible and visual low-flow and low-battery indicators. This robust product, with its smooth surface, is quick and easy to clean.

- Battery charge and particulate filter loading status indicators
- Low-flow and low-battery alarms
- Tight fitting facepiece option with automatic air flow adjustment
- Easy tool-free maintenance
- Colour indicated touch points
- Inlet plugs for full submersion and clean-up, meets IP54 and IP67 ratings for use in decontamination shower and temporary submersion when used with cleaning and storage plugs.
- Pre-calibration makes product ready to use, directly out of the box

► 1 | Starter Kit

3M™ Versaflo™ Powered Air Turbo Starter Kit TR-619A includes:

- TR-602E Turbo (includes 2 x Spark Arrestors & Air Filter Indicator)
- P3 filter
- Filter cover
- Prefilters (x10)
- Easy Clean Belt
- High Capacity Battery
- Single Station Battery Charger
- BT-30 length adjusting tube

► 2 | Total Customisation

If you need full customisation of your 3M™ Versaflo™ Powered Air Turbo TR-600 system, you can purchase all components separately (see tables on next page).

3M™ Versaflo™ Components

Powered Air Turbo

Powered Air Turbo

TR-602E	Includes:	TR-971 Air Flow Indicator
		TR-662 Spark Arrestor (x2)

Filters

Filter Cover

Filters

TR-6710ANZ PAPR-P3 Filter
