

Clarity™

Esthetic Orthodontic Solutions

Grow your practice, your way.

Add 3M™ Clarity™ Aligners to your esthetic portfolio.

Robust software.

The Clarity Aligner system was designed with orthodontists and offers all the features you expect from aligner treatment.

Excellent service.

A comprehensive, knowledgeable 3M team offers excellent service and support every step of the way.

Open platform.

Seamless integrations with market-leading intraoral scanners.

Grow your practice, your way.

3M is invested in orthodontic practitioners' success through a shared commitment to quality—in products, services and experience. Through our customer-first service and forward-thinking esthetic solutions, we help you to engage patients and provide effective treatments that deliver successful outcomes for your patients and your practice.

What's different?

Web-based open software that is accessible anywhere and compatible with any intraoral scanner.

A flexible, easy-to-use attachment template that your staff will thank you for.*

A progress scan feature designed to cut out inefficiencies in treatment.

In an online survey, 100% of U.S. doctors agreed that the 3M Clinician Support Team helps customers with excellent service every step of the way.

Dr. Rick O'Neil
D.M.D., M.S.
South Alabama
Orthodontics
Daphne, Alabama

"Our entire practice uses 3M products, and so when I had the opportunity to incorporate aligners into our office as well, it was a no-brainer."

Dr. Darin Ashcraft
D.D.S., M.S.
Ashcraft & Frazier
Orthodontics
Zionsville, Indiana

"Number one, the customer service behind 3M Clarity Aligners is fantastic."

Dr. Shane Langley
D.M.D., M.S.
South Alabama
Orthodontics
Daphne, Alabama

"We've had good success treating some difficult cases with 3M Clarity Aligners. And, now we feel comfortable enough to move our aligner business 100% into the 3M world."

* In an online survey, 100% of doctors agreed that the 3M™ Clarity™ Aligners Attachment Template is flexible, making it easy to remove from the mouth after bonding the attachments.
