

3M Reflective Certified Partners.

Working towards zero starts with NOT leaving safety, quality and durability to chance.

Don't leave safety to chance.

Are you getting genuine 3M reflective for your signs, rail cars, emergency, mining or heavy vehicles?

Are you getting locally made and supplied signs? Using 3M Certified Australian and New Zealand partners you know they are manufactured to the highest of standards.

Are your Permanent Signage assets protected by 3M's Full Sign Replacement Warranty for up to 12 years?

3M Reflective Certified Partners.

*Whether you're an engineer,
fleet owner or manufacturer—
choosing a 3M certified
partner ensures that you
are using a compliant
and genuine 3M product
that meets or exceeds all
applicable Australian and
New Zealand standards.*

12 Year
Warranty*

Did you know that 3M has a full sign replacement warranty covering the cost removal, replacement and erection costs?

3M Certified Manufacturers are authorized to provide the 3M Extended Warranty for Permanent Signage. These Certified Manufacturers undergo robust audits and are subject to rigorous 3M manufacturing guidelines. Each year, they are issued with a Certificate of Accreditation, validating their authority to provide the benefits of the 3M Extended Warranty to their customers for that year.

*For full details of the 3M Extended Warranty for Permanent signs, speak to your local 3M representative or visit www.3Mreflective.com.au or www.3Mreflective.co.nz

How do you ensure your signs are covered by 3M extended warranty?

1. Source permanent signs from the below Diamond Certified Manufacturers. Ensure that your sign manufacture provides you with a current copy of the Certificate of Accreditation.
2. Ensure your signs have a stamp or label on the rear of the sign. Details must include:
 - a) manufacturer's name; b) date of manufacture; and c) class of material used.

3M Certified Permanent Manufacturers

3M™ Diamond Grade™
Certified Manufacturer

3M™ Digital Diamond
Certified Manufacturer

3M Diamond Grade Manufacturers are certified to use traditional sign manufacturing methods such as screen printing and multi coloured layering.

3M Digital Diamond Manufacturers are certified to digitally print signs. This latest technology boasts significant environmental benefits, but also has the ability to produce a wider range of colorful reflective graphics and images on signs.

3M Diamond Safety in Work Zones.

Just because a traffic sign is temporary does not mean that brightness and quality don't matter. The visibility of work zone traffic signs is critical in helping drivers safely navigate through unfamiliar and potentially hazardous road work zones.

3M Temporary Traffic Control Certified Partners.

Roadwork zones are one of the most dangerous areas on the road for both motorists and workers. These zones often force motorists to make quick and unexpected decisions due to temporary lane closures and diversions around work areas, leading to confusion which can potentially have devastating consequences.

By choosing 3M Temporary Traffic Control Certified partners, you can be sure that you are getting locally made signs, using high quality, compliant reflective sheeting.

3 Year
Warranty*

3M Assured Seal Partners.

3M Assured Seal Partners are authorized to provide 3M extended warranty for up to a period of 3 years on reflective applied to Emergency Service and Mining Vehicles, Rolling Cars and Roadway delineation in mines.

	ADDRESS	PHONE
Calgraphics	3 Industry Circuit, Kilsyth South VIC 3137	(03) 9721 0100
HI-VIS Signs and Safety	40/42 Fitzroy St, Carrington NSW 2294	1300 857 500
Impression Markings	7/17-37 Lorraine St, Peakhurst NSW 2210	(02) 9534 5757

* The warranted period is for 3 years and subject to the conditions set out in the 3M assured seal warranty statement.

Mining

In constantly changing work sites and environments, visitors, contractors and workers need to see vehicles and signs quickly. Monochrome environments and night time operations make visibility a critical challenge. Even in these challenging environments, you can trust 3M Assured Seal Partners to be using innovative 3M technologies to keep your site running smoothly. 3M Assured Seal Partners are authorised to provide 3M extended warranty for up to a period of three years on reflective vehicle marking and roadway delineation in mines*

Emergency Service

The 3M certified reflective emergency vehicle applicators are able to apply warranted fully customised reflective decals for emergency, fleet and utility vehicles*. The 3M Assured partners are also able to ultrasonically edge seal each decal, providing both dust and water proofing.

Rolling Car

3M Certified reflective rolling car markers are certified designers, applicators, manufacturers and installers of 3M reflective on rail cars.

3M's Diamond Grade™ Reflective Tapes deliver outstanding vehicle visibility and improve safety by reducing the chance of an accident up to 30 TIMES*.

Full-contour and partial contour vehicle reflective markings are recommended in Australia under the ATA Industry Technical Advisory Procedure for Heavy Vehicle Visibility. Vehicle reflective Markings are also recommended in New Zealand by NZTA under “Land Transport Rule: Vehicle Lighting”. 3M Heavy Vehicle Reflective dealers are able to offer a complete range of ECE104 compliant reflective tapes for marking rigid and curtain sided heavy vehicles.

*Prof. Dr. -Ing. H.-J.Schmidt-Clausen, Laboratory of Lighting Technology, Darmstadt University of Technology: Contour Marking of Vehicles, Final Report FO 76/00.
