ELECTRONICS

Avoid any surprise.

Smart homes connect visitors through indoor and outdoor phones. They need to be reliable to operate at all times. With high performance bonding strength and unique sealing properties, 3M™ VHB™ Tape 4914 bonds displays so that your house can stay connected all the time.
Power your ride.

E-bikes and e-scooters rely on a battery that cannot let you down. That’s why they need to resist any rain, snow or muddy conditions. With closed-cell technology that provides high sealing performance, 3M™ VHB™ Tape 4914 can waterproof any battery button or joint for a fun ride in any weather.
Big screens. Better bonding.

Large Monitors are used in both office and manufacturing environments. They are a key interface for design or industrial processes. Because of the weight of the display, a reliable bonding solution is often needed. With high holding power and shock absorbing performance, 3M™ VHB™ Tape 4914 helps protect your large displays so you can be as efficient as possible.
ELECTRONICS

Stay in Control.

Drones are increasingly used for taking pictures, filming and real time analysis of hard to access locations. A reliable display is needed to always stay in control. With high drop resistance and sealing, 3M™ VHB™ Tape 5980 helps protect your display so that you can always keep an eye on what your drone is seeing.
Move with Power.

Smart Watches need a reliable source of power that will not fail. That is why the battery needs to be stabilized even during very active exercise. With high shock absorption, bonding and sealing, 3M™ VHB™ Tape 5980 helps protect your battery to keep you connected for the marathon ahead.
