3M™ PPS™ Paint Preparation System

Enhancing paint room productivity.

- ▶ Enhance quality with optimum material transfer
- ▶ Optimise efficiency with less material
- ▶ Reduced solvent usage
- ▶ Easy to mix, spray and clean-up
- ▶ Maximise productivity with a faster and easier system

Easy to mix, spray
and cleanup – work
smarter, not harder.

3M™ PPS™ Paint Preparation System.

Innovation. Efficiency. Productivity. These are the values you've come to expect from 3M.

3M delivers all 3 values with the PPS™ Paint Preparation System. This innovative system increases efficiency by eliminating the need for traditional mixing cups and paint strainers.

- ▶ Unlike traditional spray cups, paint is mixed and sprayed out of the same PPS™ liner with a lid and built-in filter.
- ▶ Specifically designed adapters allow painters to use the PPS™ system with virtually any spray gun.
- ▶ Safe from outside contamination, the PPS™ system offers a cleaner, more efficient solution for all repairs.

The key benefits of the 3M™ PPS™ Paint Preparation System include:

- ▶ Only one PPS™ cup for mixing and spraying
- ▶ Enables painters to mix less paint
- ▶ Used for all painting applications such as Primer, Base Coat and Top Coat
- ▶ Up to 70% saving of cleaning solvent
- ▶ Closed system – no outside contamination
- ▶ Faster system – from mixing to disposal
- ▶ Less operator exposure to solvents and reduction in VOCs
- ▶ Spray gun functions at any angle
- ▶ Available in 4 sizes: 180, 400, 650 & 850ml
