

DIY CARDBOARD DOLLS HOUSE

by Clever Poppy

First of all, use Scotch® Heavy Duty Shipping Packaging Tape to construct the house and roof. You can use a large cardboard box for this, with cut-out windows, a door, and staircases.

Try this fun project these School Holidays!

Use Scotch® Expressions Washi Tape to decorate the furniture and as a wallpaper effect.

Post-it® Notes are a fun way to decorate the house. Try making roof tiles or creating accessories like lamps and wall hangings.

Scotch® Super-Hold Tape is perfect for making smaller dolls furniture with pieces of cardboard.
