- 10 Scotch-Brite™ Power Sponge 3000
- 11 Scotch-Brite™ Surface Preparation Pads 

Maintain the high standards of your hospital facilities with 3M™ Professional Cleaning Solutions.

1 3M™ Easy Trap Duster – Sweep & Dust Sheets

Traps up to 8 times more dirt, dust and sand than conventional flat-fringed cotton dust mops or a competitive sweeping dust cloth brand. Double-sided sheets provide more space for all dry soil types to be captured in order to reduce abrasion on the floors. The proprietary fibres pick up even when wet. Can be used with your existing flat mop or high duster.

2 3M™ Easy Scrub Flat Mop System

Excellent for daytime cleaning activities and ease of manoeuvring around furniture. Help cut chemical waste by 80% compared to a mop and bucket, with the operator-controlled dispensing mechanism.*

* Based on a study conducted by 3M

3 3M™ Stone Floor Protection System

Provides lasting stain protection and shine with less maintenance than traditional finishes. This commercial stone floor protection system works well on many substrates including polished concrete, terrazzo, and other stone surfaces.

4 Scotch-Brite™ Clean & Shine Pad

2-in-1 daily cleaning pad for low-speed scrubbers that gradually increases shine with repeated use.

5 Scotch-Brite™ Easy Erasing Hand Pad 4004 and Doodlebug™ Pad 4610

Ideal for removing stains, marks, ink and more. Just use water — no chemicals or sprays needed.

6 3M™ Glass Cleaner & Protector

Reduces resoiling of glass and mirrors by leaving an invisible layer of Scotchgard™ protection.

7 Scotch-Brite™ High Performance Microfibre Cloths

Ideal for cleaning stainless steel, chrome, wood and enamel, Scotch-Brite™ High Performance Microfibre Cloths are reusable and perfect for delicate surfaces such as glass and plastic.

8 3M™ Stainless Steel Cleaner & Protector

3M™ Stainless Steel Cleaner & Protector with Scotchgard™ Protector leaves an invisible layer of protection on stainless steel surfaces, making them easier to clean and more resistant to fingerprinting and smudging. This water-based, oil-free formula allows for quick-drying, streak-free spot cleaning, which can help reduce labour and lower product consumption.

9 3M™ Safety-Walk™ Slip Resistant Fine Resilient Tapes and Treads

Offers a low-profile design and helps reduce trip hazards. This textured resilient top surface, slip-resistant material is adhered by a durable resin to a pressure-sensitive, adhesive-backed plastic film. Great for use in showers to provide extra traction.

10 Scotch-Brite™ Power Sponge 3000

Two cleaning tools in one: Scotch-Brite™ Power Pad combined with a sponge. Antimicrobial protection is locked in to resist odours in the sponge.

11 Scotch-Brite™ Surface Preparation Pads

Heavy-duty scrubbing for removal of 1-2 layers of finish prior to re-coating. No chemicals necessary; can be used with water-only or neutral cleaner.†

†3M has a full line of floor pads to meet the needs of your facility.
