3M™ Lava™ Esthetic Fluorescent Full-Contour Zirconia

EVERYTHING ELSE IS JUST ZIRCONIA.

3M™ Lava™ Esthetic Fluorescent Full-Contour Zirconia. The next generation of natural.

It offers more than just high strength and high translucency. Lava Esthetic Zirconia is the first zirconia with built-in fluorescence,* which means it looks more natural under sunlight. Unlike other zirconia, it doesn't need a topical fluorescent glaze — so it won't fade or lose vitality over time.

Monolithic anterior zirconia crowns on fluorescent stump materials and crown cross-sections
