# 3M™ DBI-SALA® Strut Anchor

Our anchorage connectors are built from using high strength and durable materials designed to stand up to tough environments.

Anchorage connectors are critical components used in fall protection. They securely attach your personal fall protection system to the anchorage point. Proper selection of the anchorage connector depends on the type of work being performed. These anchorage connectors can be fixed, mobile, permanent or portable.

Steel

Concrete

Part #	Strut Width	Market Place Formal Name
2104709	1-5/8" (4.1cm)	3M™ DBI-SALA® Strut Anchor
