

Find the stethoscope that's perfect for you.

3M™ Littmann® Stethoscopes offer superb acoustic performance, consistently high quality, and an outstanding value. Nearly all Littmann stethoscopes use tunable technology – a 3M invention that gives you the ability to hear different frequency sounds without turning over and repositioning the chestpiece.

Made in U.S.A.

Experience the power of tunable technology.

LIGHT CONTACT: Hold the chestpiece with light pressure to hear low frequency sounds.

FIRM PRESSURE: Press the chestpiece a little more firmly to hear higher frequency sounds.

	Cardiology			Lightweight			
Family Description	Designed to help you detect more of the subtle sounds that could make a difference in diagnoses. Outstanding acoustic performance due to larger and deeper chestpiece Dual-lumen tubing eliminates the rubbing noise of traditional double tubes Tunable technology enables switching between hearing highand low-frequency sounds without repositioning chestpiece For detailed diagnostic auscultation		Hard-working clinical tool with Consistent high acoustic sensi Resilient, next-generation sing Nearly all Classic stethoscope: Compact design is ideal for ph	Lightweight without compromising on sound quality. Reliable acoustic performance via a teardrop-shaped chestpiece that slips under bandages and blood pressure cuffs easily Single lumen next-generation tubing Adult side of double-sided chestpiece features tunable technology Ideal for taking blood pressure readings and making basic patient assessments

Why 3M™ Littmann® Stethoscopes are recognized as the gold standard.

Symbol of quality

Profession-leading innovations, precision engineering, advanced materials, and more, ensure consistency in every 3M™ Littmann® stethoscope.

Tunable technology

Isolate high- or low-frequency sounds simply by adjusting how much you press on the chestpiece.

Next-generation tubing

Improved resistance to alcohol and skin oils; hangs straight and flexes easily. Does not contain natural latex or phthalate plasticizers to protect the environment and human health.

Comfort for the physician

Adjustable headset, snap-tight soft sealing eartips ensure a comfortable fit and excellent acoustic seal.

A personal touch

Choose from a variety 3M™ Littmann® Stethoscope models to reflect your style and meet your auscultation needs.

Visit our Product Finder for more information on choosing the right stethoscope.
