Applied to Life.™

3M™ Clarity™ Ultra Self-Ligating Brackets

**Practise confidently.  
Smile beautifully.**

# Create success for patients and your practice.

---

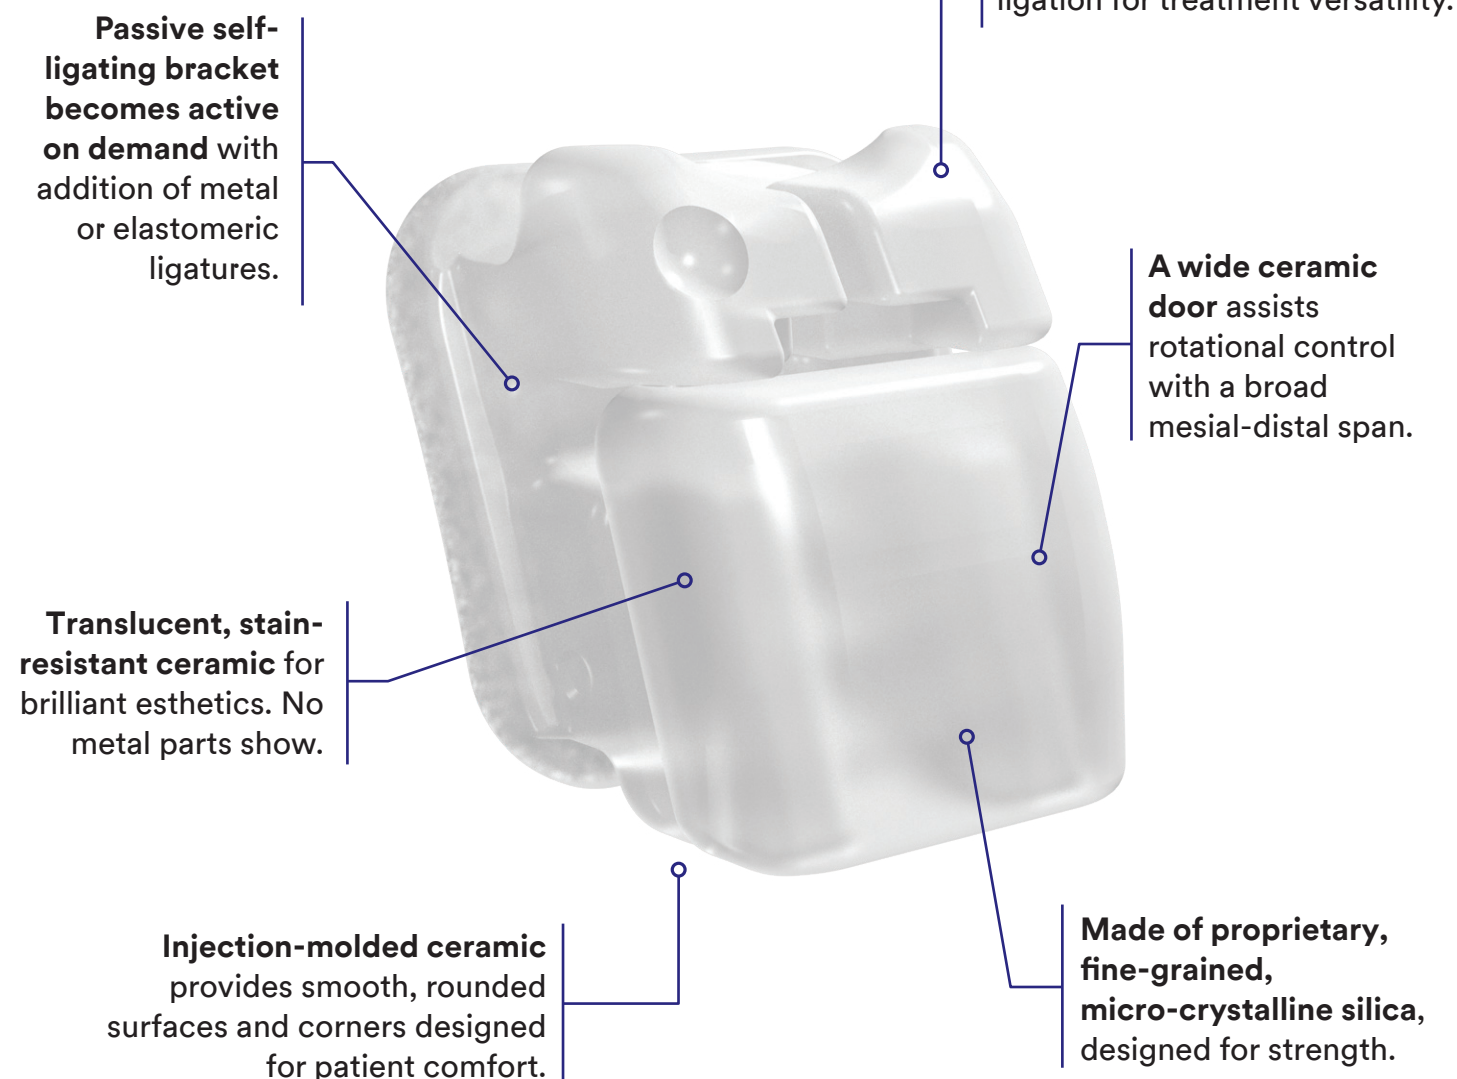

As you know, the orthodontic business and treatment models are changing. Patients have more choices than ever, and they're playing an active role in decision-making when it comes to the products they purchase. At the same time, emerging technology is driving innovation and new efficiencies in the practice of orthodontics.

In the midst of this change, your goal remains the same—creating beautiful, confident smiles that will last your patients a lifetime.

# Showcase your expertise. Deliver precise results.

3M™ Clarity™ Ultra Self-Ligating Brackets offer rotational control, improved versatility and 3M's unique stress concentrator designed for predictable, consistent debonding.

Doors withstand more than **2X** typical treatment use\*

**Reliable self-ligating doors** withstand more than 2 times the opening and closing cycles of typical treatment.

Typical 2-year treatment

**2x**

3M™ Clarity™ Ultra Bracket door reliability

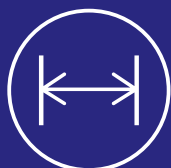

\*In laboratory testing, 3M™ Clarity™ Ultra Self-Ligating Bracket doors survived a minimum of 2 times the open and closing cycles of typical treatment, making them reliable.

# Empowering your efficiency and results.

You and your patients want the same thing: effective treatment options with positive results. To achieve this, you need control and predictability from start to finish. 3M™ Clarity™ Ultra Brackets give you that power—allowing for successful treatment planning to generate precise outcomes.

Easy wire changes  
without ligation  
and ligatures

Wide ceramic door  
that assists rotational  
control with a broad  
mesial-distal span

Passive or active  
on demand

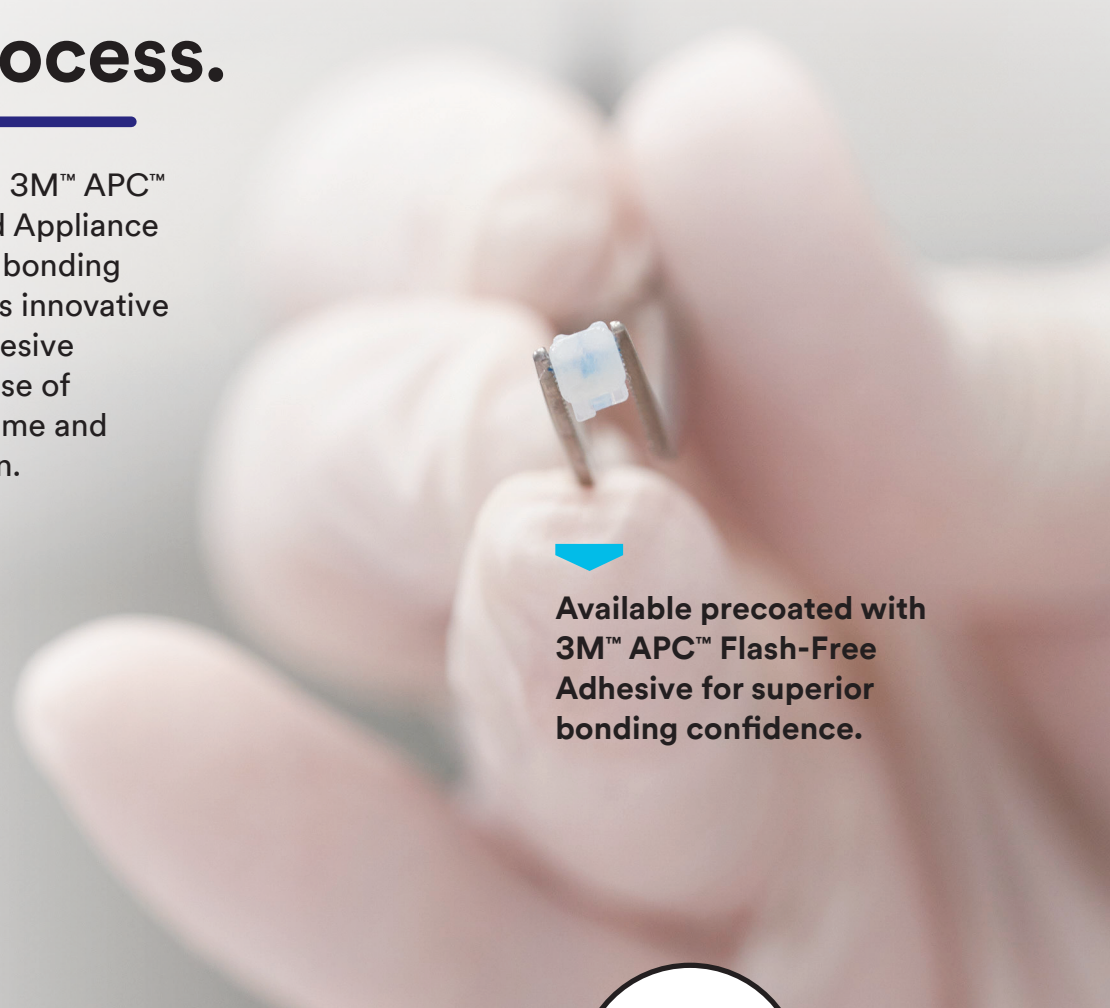

Rotational control  
without adding  
accessories

# Simple, efficient bonding process.

Powered by technology, the 3M™ APC™ Flash-Free Adhesive Coated Appliance System is the most efficient bonding system in orthodontics. 3M's innovative design creates a unique adhesive bonding substrate on the base of the bracket that saves you time and improves patient satisfaction.

Available precoated with 3M™ APC™ Flash-Free Adhesive for superior bonding confidence.

## Saves Time and Cost

- ✓ Faster and more efficient bonding than non-precoated brackets
- ✓ Eliminates the flash removal step from bonding
- ✓ Simple, easy clean-up at debonding

## Superior Bonding Efficiency

- ✓ Bond time is reduced up to 40% per bracket
- ✓ No flash removal reduces accidental bracket movement after positioning, reducing the need to reposition
- ✓ Helps protect tooth enamel under adhesive

# Driven by innovation you can count on.

When you choose the Clarity™ Ultra Bracket system, you choose leading-edge technology, predictability and the customer service you rely on from 3M. More importantly, you have control of an esthetically pleasing solution that performs throughout the treatment process and helps promote practice growth.

## Maximizing efficiency

- ✓ Colour-coded identification dots for simple bracket selection
- ✓ Vertical and horizontal reference marks for easy bracket positioning on the tooth
- ✓ Brackets shipped with the doors open, eliminating this step before archwire placement
- ✓ Unique stress concentrator designed for predictable squeeze debonding

## Performance reliability

- ✓ Door mechanism designed to resist unplanned opening and closing
- ✓ Door mechanism designed to provide an audible “click” sound when door is opened or closed
- ✓ Doors last more than 2 times the opening and closing cycles of typical treatment\*

3M™ Victory Series™  
Superior Fit Buccal Tubes

3M™ Clarity™ Ultra  
Self-Ligating Brackets

3M™ Forsus™  
Class II Correctors

## One methodology. Optimized practice efficiency.

---

Powered by 3M science, 3M™ Clarity™ Self-Ligating Brackets and other 3M products – including 3M™ APC™ Flash-Free Adhesive, 3M™ Forsus™ Class II Correctors and the 3M™ MBT™ Versatile+ Appliance System – are designed to work together to give you efficient and custom control to achieve results with a single treatment methodology.

# The clear solution that inspires smiles.

---

Designed to blend in with natural tooth colour, 3M™ Clarity™ Ultra brackets provide a fully esthetic solution. Translucent and stain-resistant, the bracket has no visible metal parts, giving it an attractive appearance.

The absence of elastomeric ligatures that may stain during treatment also enhances the visual appeal. Smooth, rounded, ceramic surfaces and edges are designed to deliver comfort over the course of treatment that both you and your patients will appreciate.

**A perfect companion for healthy, beautiful smiles.**

Paired with Clarity™ Ultra Brackets, 3M™ Unitek™ Esthetic Archwires are a perfect complement to help your patients smile confidently.
