Safety as basic as the ABCs!

A typical Personal Fall Arrest System (PFAS) incorporates three components, often described as the ABC’s of fall protection. The anchorage/anchorages, body support and connecting device — when used together — form a complete system for maximum worker protection. But don’t forget the other important components of a comprehensive fall protection program: descent and rescue, education and fall protection for tools.

Anchorage

Body support

Connectors

Rescue and Descent

eEducation is essential. We offer a variety of training and consultative services to fit your needs.

Fall protection for tools helps make work environments safer and more productive by reducing dropped object incidents.

The sky’s the limit.

"Dedicated To Bringing Every Worker At Height Home Safely"

3M Fall Protection, a part of 3M’s Personal Safety Division is dedicated to fall protection and rescue. Our focus is razor sharp, it continually drives us to design and manufacture the safest possible height safety gear. We understand the industries we serve and listen to the workers in the field. We employ the best engineers to create innovative solutions and patent the products that keep workers safe at heights around the world. 3M Fall Protection has the best quality and largest range of fall protection products in the industry. But we’re more than a product company. We take an innovative approach in bringing our products to the field.

We have created international partnerships and a vast network of authorised distributors, certified installers and service centres. We offer on-site and in-house training. Our manufacturing sites hold ISO 9001 quality accreditation, as well as ISO 14001 environment and AS4801 Health & Safety accreditation. 3M Fall Protection is one of the world’s leading manufacturers of fall protection and rescue equipment, with decades of experience and a legacy of innovation. Look for complete solutions in our extensive range of DBI-SALA® and Protecta® brands.

Delivery

To assist you on receiving your products in a timely manner, please note delivery time for products are indicated below:

- Products available for next day dispatch*.
- Products made to order*.
Anchorages

3M offers the most complete selection of temporary and permanent anchorage connectors available. Our safety anchors include steel anchors, concrete anchors, roof anchors and specialty anchors like our vacuum mount for smooth surface environments. We manufacture anchor systems to fit your unique applications.

Body Harnesses

Safety harnesses provide comfort and confidence, and directly affects the user’s productivity, as well as giving them flexibility to do what needs to be done on the job site. 3M has the latest in full body harness protection. DBI-SALA® and PROTECTA® harnesses - ExoFit STRATA®, ExoFit NEX™, Delta™, PRO and FIRST™ - have earned a reputation as top full body harnesses for maximum comfort, freedom of movement and ease-of-use.
3M™ DBI-SALA® ExoFit STRATA™ Full-Body Harnesses

No other harness compares.

The most comfortable, lightest-wearing, truly innovative safety harness ever created: the ExoFit STRATA™. Featuring the exclusive LIFTech™ load distribution system, the ExoFit STRATA™ literally takes the weight off your shoulders and redistributes it down to your hips, dramatically reducing shoulder strain and fatigue.

Features and Benefits:

- Keeps your back cool
  - Polarmesh™ Padding - Allows greater airflow to your back, providing superior breathability to keep you cool.
- Unleashes your mobility
  - Revolver™ Vertical Torso Adjuster - Easily stores excess webbing, locking it in place and out of your way while maintaining the perfect fit.
- Memory Fit Web Lock
  - Duo-Lok™ Quick Connect Buckles - Lightweight one-handed use, ensures fast, non-slipping connections.
- Secures your safety
  - Tech-Lite™ Aluminium Front, Dorsal & Side D-Rings - Maximise reliability without adding extra weight.
- Connects you quickly
  - Ez-Link™ Quick SRL Adapter - Simplifies connecting and disconnecting your personal self retracting lifeline.
- Frees your shoulders
  - LIFTech™ Load Distribution System - Redistributes the weight from pressure points on your shoulders and spreads it out to the base of your hips.

BONUS Storage Bag

3M™ DBI-SALA® ExoFit STRATA™ Construction Harness

Ideal for the professional performing construction, rigging, ladder climbing and general height safety work where the use of a Personal SRL is used on a regular basis.

Front and rear Tech-Lite™ aluminium D-rings, Ez-Link™ quick SRL adapter, LIFTech™ load distribution system, Revolver™ vertical torso adjusters, Duo-Lok™ quick connect buckles, Polarmesh™ padding, wide padded lower back/hip pad, waist belt, suspension trauma straps, confined space loops, impact indicator and REPEL™ technology webbing.

3M™ DBI-SALA® ExoFit NEX™

3M™ DBI-SALA® ExoFit NEX™ Full-Body Harnesses

The ultimate full-body comfort harnesses. ExoFit NEX™ harnesses are the most advanced harnesses in the industry. They’re the culmination of our experience with ExoFit™ and ExoFit™ XP, ongoing research and the incorporation of new materials and innovative features.

Features and Benefits:

Stand-Up Dorsal D-ring
- Patented spring-loaded design automatically stands-up, ensuring fast, easy and safe connections to your fall arrest system.

Covered Labels and RFID equipped
- A Velcro® cover protects harness labels.

Impact Indicator
- Rip-stitch indicators allow you to inspect the harness at a glance, for prior damaging impact loads.

Revolver® Vertical Torso Adjusters
- Simple and fast adjustments that eliminate loose ends and lock into place, preventing slippage.

Tech-Lite™ Aluminium D-rings
- Extremely lightweight alloy commonly used in military and aerospace offers a higher level of security and comfort.

Integrated Suspension Relief Straps
- Provide an adjustable, continuous loop for post fall, offering suspension relief.

Reflective Material
- For greater visibility in dark and dangerous environments, reflective material is integrated on legs, chest, shoulders and back.

Ultra-Soft Edging
- Moves with you - doesn’t rub or chafe.

Hybrid Comfort Padding
- Lightweight, moisture wicking, and breathable padding won’t move or slip, keeping the wearer comfortable at all times.

Lanyard Keepers
- Easy holstered snap hooks breakaway to avoid trip hazard.

Built-In Carrying Pocket
- Conveniently holds and protects a mobile phone, camera, or other items.

REPEL™ Technology Webbing
- Water repellent to reduce attraction of mould and dirt - also has up to 5 times more abrasion resistance.

Rigid Hip Padded Loops
- Prevents equipment pouches from sagging and reduces abrasion in vulnerable areas.

Duo-Lok® Quick-Connect Buckles
- Lightweight one-handed use with memory-felt web-lock ensures fast, non-slipping connections.

BONUS Harness storage back pack with every ExoFit™ harness

3M™ DBI-SALA® ExoFit NEX™ Riggers Harness

Ideal for use as a professional general purpose harness in rigging, ladder climbing and confined space access work.

Front and rear Tech-Lite™ aluminium D-rings, Duo-Lok® quick-connect buckles, Revolver® vertical torso adjusters, non-slip hybrid comfort padding, suspension trauma straps, confined space retrieval/attachment points, impact indicator, REPEL™ technology webbing.

3M™ DBI-SALA® ExoFit NEX™ Confined Space Harness

Ideal for the professional performing confined space access work, ladder access and rescue.

Front, rear and side Tech-Lite™ aluminium D-rings, Duo-Lok® quick-connect buckles, Revolver® vertical torso adjusters, non-slip hybrid comfort padding, suspended lower back/hip pad, suspension trauma straps, confined space retrieval/attachment points, impact indicator, REPEL™ technology webbing.

3M™ DBI-SALA® ExoFit NEX™ Wind Energy Harness

Ideal for the professional wind tower worker, uniquely designed with specialised features for wind energy needs.

Front and rear Tech-Lite™ aluminium D-rings, side D-rings, Duo-Lok® quick-connect buckles, Revolver® vertical torso adjusters, wide padded lower back/hip pad, removable tongue buckle waist belt, work positioning/suspension seat with tanged pole D-rings, integral chest ascender, Duolok® quick-connect buckles, padded lower back/hip pad, clamshell, non-slip hybrid comfort padding, suspension trauma straps, impact indicator, REPEL™ technology webbing.

3M™ DBI-SALA® ExoFit NEX™ Suspension Harness with Chest Ascender

Ideal for the professional ascending working lines.

Tech-Lite™ aluminium D-rings, integral chest ascender, Duo-Lok® quick-connect buckles, padded lower back/hip pad, clamshell, non-slip hybrid comfort padding, suspension trauma straps, impact indicator, REPEL™ technology webbing.

Also available: models with additional features suitable for specific industry applications.

3M.com.au/psesafety 1800 245 002(AUS) 0800 210 500(NZ)
**3M™ DBI-SALA® ExoFit NEX™ Climbing Harness**

Ideal for use as a professional general purpose harness in rigging, ladder climbing and confined space access work.

- Front and rear Tech-Lite™ Stainless Steel D-rings, Duo-Lok™ quick-connect buckles, non-slip hybrid comfort padding, suspension trauma straps, continuous tie-off attachment points, impact indicators, REPEL™ technology webbing.

**3M™ DBI-SALA® ExoFit NEX™ Riggers Harness with Stainless Steel Hardware**

Ideal for professional performing rescue and emergency services, industrial rope access, abseiling and tower work.

- Front and rear Tech-Lite™ Stainless Steel D-rings, Duo-Lok™ quick-connect buckles, non-slip hybrid comfort padding, suspension trauma straps, continuous tie-off attachment points, impact indicators, REPEL™ technology webbing.

**3M™ DBI-SALA® ExoFit NEX™ Suspension Harness**

Ideal for the professional requiring both fall and buoyancy protection in open or closed waters. 275N integral personal flotation device, rear stainless steel D-ring, front fall arrest loops, stainless steel quick-connect buckles, non-slip hybrid comfort padding, suspension trauma straps, impact indicator, REPEL™ technology webbing (also available with 300N MED/SOLAS personal flotation device).

**3M™ DBI-SALA® ExoFit NEX™ Flotation Harness**

Ideal for the professional requiring both fall and buoyancy protection in open or closed waters. 275N integral personal flotation device, rear stainless steel D-ring, front fall arrest loops, stainless steel quick-connect buckles, non-slip hybrid comfort padding, suspension trauma straps, impact indicator, REPEL™ technology webbing (also available with 300N MED/SOLAS personal flotation device).

**3M™ DBI-SALA® Delta™ Full-Body Harnesses**

The safety harness that won’t weigh you down.

Delta™ harnesses combine a set of “industry-first” advancements, with popular features making them the workhorse of the industry. Today’s Delta™ represents the culmination of more than twenty years of design, research, manufacturing know-how and on-the-job performance.

**Features and Benefits:**

- **REPEL™ Technology Webbing**
  - Water repellent to reduce attraction of mould and dirt - up to 5 times more abrasion resistance.

- **Quick-Connect Buckles**
  - Offers one-handed operation and smooth adjustment.

- **Easy Grip End Tabs and Keepers**
  - For fast, efficient and secure web adjustment.

- **Stand-Up Dorsal D-Ring**
  - Patented spring-loaded design automatically stands up ensuring fast, easy and safe connections to your fall arrest system.

- **Impact Indicator**
  - Rip-stitch indicator allows the user to quickly and easily inspect the harness for impact loading.

- **Label Pack**
  - Laminated PVC labels resistant to abrasion, UV, ambient heat, water and a wide range of chemicals. Features permanent indented print of critical product information ensuring it remains visible for the life of the harness.

- **RFID equipped**
  - Helps track equipment and manage safety inspection programs.

---

**Body Harnesses**

**BONUS**

Harness storage bag with every Delta™ harness.
Body Harnesses

3M™ DBI-SALA® Delta™

- **Riggers Harness**
  - Ideal for use in rigging, confined space, ladder access and general height safety.
  - Large rear fall arrest rated stand-up D-ring, front fall arrest rated D-ring, confined space/retrieval attachment points, quick-connect buckles, corrosion resistant hardware, fully adjustable, REPEL™ technology webbing.

- **All Purpose Harness**
  - Ideal for use in multi purpose access including confined space entry, rigging, ladder access work and position at height.
  - Large rear fall arrest rated stand-up D-ring, front fall arrest rated D-ring, confined space/retrieval attachment points, waist belt with side D-rings, quick-connect buckles, corrosion resistant hardware, fully adjustable, REPEL™ technology webbing.

- **Linesman Harness**
  - Ideal for use by mining industry personnel for use with battery packs and self rescuers.
  - Large rear fall arrest rated stand-up D-ring, front fall arrest rated D-ring, confined space/retrieval attachment points, integral miners belt with battery and self rescue straps, reflective tape, suspension trauma straps, quick-connect buckles, corrosion resistant hardware, fully adjustable, REPEL™ technology webbing.

- **Live Line & Standard Lineman Harness**
  - Ideal for use when working on high and low voltage live lines from an EWP vehicle.
  - Rear fall arrest rated webbing loop with integrated dorsal extension, front fall arrest/belay loops, confined space/retrieval/attachment points, leather/insulating/nylon hardware above the waist, suspension straps, quick-connect buckles, corrosion resistant hardware, fully adjustable, REPEL™ technology webbing.

  - Note: *No metal hardware above the waist*

- **Welders Harness**
  - Ideal for use in 'Hot Work' and arc flash environments.
  - Rear stand-up D-ring, front fall arrest rated loops, confined space loops, Nomex®/Kevlar® fibre webbing, dielectric hardware.

  - Note: *Specially designed Welders Harnesses are also available in component use with this harness.*

  - *Arc flash, flame, heat and cut resistant*

3M™ Protecta® Pro™ Harnesses
Quality and safety for everyday workers.

Full-body harnesses are genuine working tools that allow you to get on with your job without worrying about safety. That’s why our all new re-designed and upgraded 3M™ Protecta® PRO Full-Body Harness Range offers a choice of harnesses for every possible working environment, from general construction to tower work.

Features and Benefits:

Buckle Options
- Pass Through for simple, safe connection.

Chest Strap
- Optimum position for connection to lanyards and systems.
- Keeps connectors out of the users face.

Spring Loaded Torso Adjusters
- Spring loaded grip bar ensures no webbing slippage.
- Easier to adjust with pull down adjustment.

Webbing Management
- Spare torso webbing stored through hip strap.
- All stitch blocks are away from the body for greater comfort.

Contrasting Leg & Chest Strap
- Reduces donning time.

Large Rear D-ring
- Easier to connect, increased safety.
- Can be used for rescue.

Protected Labels
- Protective Velcro® sealed pouch.
- Ensures easy identification and inspection.

If a dorsal extension is part of your harness the maximum lanyard assembly permitted is 1.7 m or less.
3M™ Protecta® Pro Shock Absorbing Lanyards

Incorporating rescue D-rings and heavy duty wear pads, this lanyard has been specifically designed and developed to meet the demands of the wind energy industry.

3M™ Protecta® First™ Shock Absorbing Lanyard

Coated with an exterior polyurethane coating to provide superior protection against grease, oil, paint, dirt and grime, ideal for use in the petrochemical and painting industries.

3M™ DBI-SALA® EZ Stop Shock Absorbing Resist Lanyards

High temperature lanyards constructed from Nomex®/Kevlar® fibre webbing, ideal if you are welding, cutting or grinding, or in a potentially explosive or high-voltage electrical environment.

3M™ DBI-SALA® EZ Stop Shock Absorbing Welders Lanyards

Nomex®/Kevlar® fibre webbing, ideal if you are welding, cutting or grinding, or in a potentially explosive or high-voltage electrical environment.

3M™ DBI-SALA® EZ Stop Shock Absorbing Welders Lanyards

Incorporating rescue D-rings and heavy duty wear pads, this lanyard has been specifically designed and developed to meet the demands of the wind energy industry.

3M™ DBI-SALA® EZ Stop Shock Absorbing Welders Lanyards

These self retracting lifelines (SRLs) are anchored overhead and extend and retract automatically, letting you comfortably move about at your normal speed within a recommended working area.

Features and Benefits:

- Easy-to-install Connector
  - Provides 360 degrees rotation which leaves D Ring open for rescue
- Tough and flexible webbing or galvanised cable lifelines
  - Provides maximum range of motion, durability and cut resistance
- Integrated, backpack-style energy absorber
  - Energy absorber and connector work together to limit forces on both the worker and the leading edge
- Impact-resistant housing
  - Lightweight thermoplastic housing for maximum durability
- Hook or karabiner options
  - Designed to meet your unique need the Nano-Lok comes in multiple configurations

3M™ DBI-SALA® Fast-Line™ Lifeline Replacement Solution

FAST-Line™ allows the lifeline assembly to be replaced in the field by trained users in 4 easy steps.

Contact your 3M Fall Protection Specialist for more information.

3M™ DBI-SALA® Sealed-Blok SRL’s

Sealed design makes it ideal for working in even the harshest of environments. All Sealed-Blok Self Retracting Lifelines feature an ergonomic integral carrying handle and anchorage karabiner.

3M™ DBI-SALA® Ultra-Lok™ RSG SRL

Rugged, lightweight and superbly engineered. The professional’s choice.

3M™ DBI-SALA® Ultra-Lok™ SRL’s

Reinforced webbing lifelines constructed from Nomex®/Kevlar® fibre webbing to withstand sparks, weld spalter and other high heat exposure. Ideal for Welding, Grinding and High Heat Applications.

3M™ Protecta® Rebel™ Self Retracting Lifelines

Absolute Confidence, Total Compliance

The Rebel™ self retracting lifeline (SRL) line is built to last providing an economical fall protection solution without compromising performance or safety. Rebel™ SRL’s feature a 190 kg user capacity, a robust design to ensure longevity and are available in lengths from 6m to 30m.

Features and Benefits:

- Thermoplastic Housing
  - Lightweight, compact and durable
- Stackable
  - Housing design allows for stacking on work surfaces
- Side Cable Exit
  - Enables smooth operation and reduces cable wear
- Galvanised and SS Cable
  - Stainless steel option for added corrosion resistance
- Self Locking Snap Hook
  - Automatically closes and locks for added safety. Models with triple action karabiners also available.
- Ergonomic Carrying Handle
  - Built-in design makes transport, set-up and storage easy
- Ergonomic Cable Handle
  - Provides added comfort and ease-of-use when making connections
- Impact Indicator
  - Provides visual indication of fall arrest
- Swivel Hook
  - Limits lifeline twisting
- 16 kN Gate Capacity
  - Reduces chance of accidental disengagement ("roll-out")

3M™ Protecta® Rebel™ SRLs Mining

Specific models feature triple action karabiners on anchorage and lifeline connectors.

3M™ Protecta® Karabiners

*These hooks are manufactured to be permanently attached to spliced or webbing lanyards and other height safety products and are not sold separately.

Descent & Rescue

Thanks to 3M, not only keeping the worker safe, but getting him safely back on terra firma has never been easier with our rescue equipment. Need rescue gear such as an automatic ascender or descender to help solve the problem? We offer the most complete line of safe and effective rescue systems in the industry, trusted by safety engineers and site directors.
3M™ DBI-SALA®
High Capacity Davit

Designed for manhole and confined space entry/retrieval applications. The Davit pivots for ease of rescue and has an adjustment for overhead clearance restrictions. The lower base adjusts to fit most standard entries. A range of bases and masts are available.

Features and Benefits:

Fall Arrest Anchorage

Davits offers 4 x EN 795 type B anchor points
2 anchor points for direct connection with fall arrest PPE
2 guided cable lifelines from a 3M™ mounted SRL.

One Front and One Back Cable Lifeline Guide

In addition to being a fall arrest anchorage, the 2 guided cable lifelines serve as:
Recue line with a mounted 3M™ DBI-SALA® rescue winch or 3M™ SRL with built-in rescue winch
Raising / lowering line for people or load with a mounted 3M™ DBI-SALA® man and load-riding digital winch.

Winch and SRL Options

• Winch and SRL can be mounted on the mast with appropriate bracket.
• Front or back mounting choice is possible to allow the most convenient positioning for the user, unlike some others systems that only allow the winch and SRL to be back mounted or allowing only one fixation to the mast.

Adjustable Reach and Height

• Selection of one of the 4 davit mast extension options allows the user to select the best height setting for the operating environment.
• Multiple pins position of the gusset arm and head allows the user to adjust the best reach and height needed for the application.
• Possibility of maximum height of anchorage point is 2.91m, allowing use over most tanks edges and guardrails.

Base Options

• Fixed bases in galvanized steel or stainless steel are available to accommodate a variety of anchorage locations.
• One short reach and one long reach portable 3 piece base options allow full versatility of the systems.

Maximum external width of long reach 3 piece base is 2.61m, allowing the surround of very large confined space openings.

3M™ DBI-SALA® Tripods

Note: Tripods come standard with integral pulley system and one quick connect winch/SRL mounting bracket.

3M™ DBI-SALA® Emergency Retrieval Sealed-Blok SRL’s

Sealed design makes it ideal for working in even the harshest of environments. All Emergency Retrieval Sealed-Blok Self Retracting Lifelines feature an ergonomic integral carrying handle and anchor karabiner.

3M™ DBI-SALA® Advanced Digital Winches

Also available: stainless steel cable models.

3M™ DBI-SALA® Basic Digital Winches

Also available: stainless steel cable and Technora rope models.

3M.com.au/ppesafety  1800 245 002(AUS)  0800 212 505(NZ)
3M™ DBI-SALA® Portable Fall Arrest Posts

For use on top of transformers or other types of platforms with potential fall hazards. A range of mounting bases are available for multiple applications as well as a detachable davit arm for use in rescue. Note: Mechanical devices and attachments sold separately.

3M™ DBI-SALA® Side Entry System

Designed for confined space entry/removal and rescue operations involving horizontal entries with vertical positioning or retrieval required inside the space. Note: Mechanical devices and attachments sold separately.

3M™ DBI-SALA® Bases and Mounting Options

DBI-SALA Advanced portable and fixed bases work with a variety of davit arm and mast extensions to suit a variety of applications. Fixed Bases are ideal for work areas where frequent set-up and tear-down is required and a base can be permanently installed to an existing structure. Portable Bases are ideal when you need to move and access various confined space areas. Also available: A wide range of other fixed and portable bases in stainless steel and galvanised steel are also available, contact us for more information, or for assistance in determining the most appropriate base for your needs.

3M™ DBI-SALA® Rollgliss™

R250 Rescue Kits

All R250 kits include: extension pole, rope & safety hook, mini-haul system, karabiners, anchorage slings and bags. Note: Mechanical devices and attachments sold separately.

3M™ DBI-SALA® Rollgliss™

R550 Rescue & Escape Device – Escape Kits

10 m system, includes R550 twin brake descender, connecting karabiner on housing, 9 mm kernmantle rope with snap hooks on both ends and a storage/deployment bag.

3M™ DBI-SALA® Rollgliss™

3M™ DBI-SALA® Self Rescue Descender System (SRD)

All SRD kits include: descender, kernmantle rope, karabiner (SRD1 series), karabiners with snap hook (SRD2 series), 2 x tool, storage/deployment box, trex wire with R-clips, spacer and certification tag. Also available: 15 m dual mode self retracting life line with rescue function, stainless steel hook and cable.

3M™ DBI-SALA® UlkO™ RSQ

Service Kits

R250 Service Kit 1

All R250 Service Kit 1 kits include: twin brake descender, karabiners on housing, 9 mm kernmantle rope with snap hooks on both ends and a storage/deployment bag.

3M™ DBI-SALA® Rollgliss™

Rescue Ladder

10 m system, includes R550 twin brake descender, connecting karabiner on housing, 9 mm kernmantle rope with snap hooks on both ends and a storage/deployment bag.

3M™ DBI-SALA® Rollgliss™

R250 Rescue System

All R250 kits include: rope unit, pulleys, rope control device with integral lanyard, anchor strap, karabiners and carry bag.

3M™ DBI-SALA® Rollgliss™

R550 Rescue & Escape Device – Rescue Kits

10 m system, includes R550 twin brake descender, connecting karabiner on housing, 9 mm kernmantle rope with snap hooks on both ends and a storage/deployment bag.

3M™ DBI-SALA® Rollgliss™

R550 Rescue System

All R550 kits include: rope unit, pulleys, rope control device with integral lanyard, anchor strap, karabiners and carry bag.
PenoGuard™ increases the safety of workers that need to work around penetrations. In the closed position, it serves as a cover for access holes eliminating any risk of falling through, in the open position it acts as a four sided guard rail allowing easy access to the penetration while protecting workers and bystanders around the hole.

Descent & Rescue

3M™ Protecta® Confined Space Tripod and Accessories

3M™ DBI-SALA® ExoFit NEX™ Suspension Harness with Chest Ascender

Confined space: We have you covered.

This harness comes with Front, rear, side and abdominal Tech-Lite™ aluminium D-rings, Duo-Lok™ quick connect buckles, padded lower back/hip pad, chest ascender, tool & gear loops, non-slip hybrid comfort padding, REPEL™ technology webbing and a comfort guarantee.

Features and Benefits:

Front, rear, side and abdominal Tech-Lite™ aluminium D-rings
- Extremely lightweight alloy commonly used in military and aerospace offers a higher level of security and comfort
Integral chest ascender
- For efficient entry and exit
Duo-Lok™ quick-connect buckles
- Lightweight one-handed use with memory-fit web-lock ensures fast, non-slip connections
Padded lower back/hip pad
- For additional user comfort
Gear loops
- For easy equipment positioning
Non-slip hybrid comfort padding
- Lightweight, moisture wicking, and breathable padding won't move or slip, keeping the wearer comfortable at all times
REPEL™ technology webbing
- Water repellent to reduce attraction of mould and dirt - also has up to 5 times more abrasion resistance.

Descent & Rescue

PenoGuard™

PenoGuard™ increases the safety of workers that need to work around penetrations. In the closed position, it serves as a cover for access holes eliminating any risk of falling through, in the open position it acts as a four sided guard rail allowing easy access to the penetration while protecting workers and bystanders around the hole.

3M™ DBI-SALA® FlexiGuard™ Solutions

C-Frame rail fall arrest system
A versatile system designed to be moved manually or with the use of a tow bar and service vehicle to provide safe access, horizontal movement and total fall protection on or near sensitive equipment for up to two users.

Ladder fall arrest system
Adjustable in height that provides easy access to elevated work areas of different heights such as fuselage, wing and general maintenance areas with fall protection from the ground up for multiple users, for the duration of the work being performed.

Engineered modular unit with counterweight base
The Counterweighted Engineered Modular Unit is a portable solution for indoor and outdoor maintenance where mobility and worker safety are key. The system incorporates an adjustable height 360° rotating jib with the capacity to provide fall protection for one person. Forklift pockets are located on two sides of the base as well as the ability of fitting additional lifting rings to each corner to ensure ease of mobility and placement from job site to job site.

A-Frame rail fall arrest system
A secure anchor point in a portable structure giving the worker increased coverage and protection. Ideal solution for a workshop environment where space is limited. System is designed to be moved manually, provides horizontal movement and total fall protection for up to two users.

SafRig™ with counterweight base
The Counterweighted SafRig is a portable solution for indoor and outdoor maintenance where mobility and worker safety are key. The system incorporates a fixed height 360° rotating jib with the capacity to provide fall protection for one person. Forklift pockets are located on two sides of the base as well as the ability of fitting additional lifting rings to each corner to ensure ease of mobility and placement from job site to job site.

Counterweight rail fall arrest system
Designed as a versatile solution to provide an overhead anchor point for up to two users while working at heights. These systems are designed to be counterbalanced by concrete allowing for close positioning to the work surface without obstructing the equipment being accessed.

Portable tanker access ladder system - fall arrest
The Portable Tanker Access Ladder System (PTALS) provides easy access to elevated work areas with fall protection from the ground up for multiple users, for the duration of the work being performed. System configurations may include but not limited to guardrails, SRLs or confined space entry equipment.

Portable tanker access ladder system - work positioning
The Portable Tanker Access Ladder System (PTALS) combines easy access to elevated work areas with fall protection and work positioning for one operator for the duration of the work being performed. System configurations may include but not limited to guardrails or confined space entry equipment.

Speciality Systems

Each FlexiGuard solution is driven by our customers' needs and is dependent on the industry, environment and specific design constraints, including government standards. For complete peace of mind DBI-SALA's FlexiGuard Access Systems offer a complete solution that is ready to use.

Due to the technical nature of all these speciality systems and applications, a degree of customisation is required. Please contact 3M Fall Protection for more information.
3M™ DBI-SALA® Engineered Systems

Our range of engineered horizontal systems provide a choice of fall protection solutions that allow users to most effectively resolve the risks associated with work at height in a wide range of applications, and comply with workplace safety regulations.

RoofSafe™ cable system

The system attaches to roof sheeting and can span up to 12 m between supports to provide continuous hands-free access and protection.

RoofSafe™ rail system

The only direct to roof rail system that can facilitate changes in direction and roof slopes, ensuring continuous safe roof access for fall arrest and rope / suspended access applications.

3M™ DBI-SALA® 8 mm permanent horizontal lifeline system

This system attaches to the structure and is well suited to modern building projects and a wide range of industrial safety applications.

UniRail™ system

Can be fitted to a wide range of structures and can support multiple workers for both fall arrest and rope / suspended access applications.

The Uni-8™ overhead system

This quality safety solution can support heavy fall arrest and controlled rate descent devices, ensuring free and unhindered movement for the worker when carrying out work at height.

Contact us for more information or to speak with one of our Systems Specialists

3M™ DBI-SALA® Accessories

RoofSafe™ rail system

The only direct to roof rail system that can facilitate changes in direction and roof slopes, ensuring continuous safe roof access for fall arrest and rope / suspended access applications.

3M™ DBI-SALA® 8 mm permanent horizontal lifeline system

This system attaches to the structure and is well suited to modern building projects and a wide range of industrial safety applications.

UniRail™ system

Can be fitted to a wide range of structures and can support multiple workers for both fall arrest and rope / suspended access applications.

3M™ Protecta® Accessories

RFID retrofit tags are also available for use on all brands of harnesses, lanyards, self-retracting lifelines or other equipment such as gas detectors, tools, ladders & fire extinguishers that require inspection.

3M Australia*, offers a range of training and consulting services to fit your needs, ensuring you or your employees are thoroughly trained in a practical, hands-on environment.

In-house training facilities
Custom-built, in-house training facility at our Sydney training centres provide a hands-on training experience. Practical demonstrations, individual exercises and theoretical assessment ensure our courses build confidence and enhance safety competence when working at heights.

Tailored training
Our courses can be tailored to suit a company’s individual requirements. We specialise in the design and implementation of training for industry sectors such as: civil, construction, mining, and wind energy. We also offer specialist courses such as: roof top and bridge rescue, jump form, tower crane and swing stage rescue, post fall recovery and wind turbine rescue.

On-site training
Training programs can be delivered at the client’s site at all locations across Australia. If you can provide the students and the location, we will provide the equipment and experienced instructors.

3M Australia*, is accredited by the National VET Regulator, ASQA, to deliver the following nationally recognised units of competency:

- HLTAID001 - Provide cardiopulmonary resuscitation
- HLTAID002 - Provide basic emergency life support
- HLTAID003 - Provide first aid
- MEM10118B - Undertake manual handling
- MEM10004B - Perform inspection
- MSMPER200 - Work in accordance with an issued permit
- MSMPER205 - Enter confined space
- MSMWHS216 - Operate breathing apparatus
- MSMWHS217 - Gas test atmospheres
- PUASAR022A - Participate in a rescue operation
- PUASAR032A - Undertake vertical rescue
- PUAWER008B - Confine small workplace emergencies
- RIIWHS202D - Enter and work in confined spaces
- RIIWHS204D - Work safely at heights
- UETTDRRF02B - Perform pole top rescue
- UETTDRRF03B - Perform EWP rescue
- UETTDRRF048B - Perform tower rescue
- UETTDRRF06B - Perform rescue from a live LV panel
- UETTDRRF08B - Perform EWP controlled descent escape
- MSMPER200 - Work in accordance with an issued permit
- MSMPER205 - Enter confined space
- MSMWHS216 - Operate breathing apparatus
- MSMWHS217 - Gas test atmospheres
- PUASAR022A - Participate in a rescue operation
- PUASAR032A - Undertake vertical rescue
- PUAWER008B - Confine small workplace emergencies
- RIIWHS202D - Enter and work in confined spaces
- RIIWHS204D - Work safely at heights

- UETTDRRF03B - Perform EWP rescue
- UETTDRRF048B - Perform tower rescue
- UETTDRRF06B - Perform rescue from a live LV panel
- UETTDRRF08B - Perform EWP controlled descent escape

* 3M Australia, through its Subsidiary Capital Safety Pty Ltd, RTO 91276 is the holder of the RTO Licence.

3M.com.au/ppesafety

Inspection reporting service.

Is your site safe to work at height?

- The law requires that you provide a safe work environment for staff, visitors and contractors.
- How long has it been since your last site inspection?
- Do you have a workable rescue plan?

One of the biggest challenges facing many companies is understanding where the working-at-height risks exist on site and the types of measures that can be taken to minimise them.

Our trained technicians will develop a thorough report, making recommendations that employ worlds best practice regarding fall protection in your workplace.

Contact your Regional Sales Manager or our Customer Service Centre on:

1800 445 867 (AUS)
0800 212 505 (NZ)

to book your site inspection or for more information.
