3M™ Scott™ Sight In-Mask Thermal Imager

with Pro Package

3M™ Scott™ Sight In-Mask Thermal Imager

Hands-free thermal intelligence.

When you wear 3M Scott sight thermal imager, you get more than constant thermal vision. You get your hands back. That's because unlike other hand-held thermal imagers, Sight uses a small thermal camera mounted to the side of the facepiece. A miniaturized display mounted inside the facepiece allows the firefighter to see the image without the need for reaching down and handling an imager.

Features

- **In-Mask Display**
See a clear image unaffected by external conditions.
- **Adjustable Display**
Configurable to your line of sight.
- **Standby Mode**
Activate standby mode with a single push of the TIC power button.
- **Auto System Power Off**
Equipped with an accelerometer to automatically turn off the system when not in use.
- **Single-Button Power Off**
Power off both the in-mask display (IMD) and thermal imaging camera (TIC) by a single button press of the IMD power button.
- **IMD Instantaneous On**
Power the IMD on with a one-second push of the IMD power button.
- **Enhanced Battery Performance**
Improved battery life during use and in storage.
- **Minimum Four-Hour Battery Life**
Powered by simple, everyday AAA batteries.
- **Fits Any 3M™ Scott™ AV-3000 HT Facepiece**
Buy as a complete kit or upgrade your current AV-3000 HT facepiece.
- **3M™ Scott™ Sight Mobile Configuration Application**
 - Available for download on iOS® or Android™
 - Configures IMD to customize brightness, icon layouts, temperature displays and display colors.

3M™ Scott™ Sight Pro Package

Sight goes Pro.

Sight Pro Package is the next evolution of the industry's first in-mask, hands-free thermal imaging solution. Pro Package enables new, advanced features to provide firefighters with greater situational awareness during fireground operations.

Hot-Spot Tracker

Helps identify the hottest part of the thermal image and displays its relative temperature. Ideal for overhaul, search and rescue, and risk assessment.

Cold-Spot Tracker

Helps identify the coldest part of the thermal image and displays its relative temperature. Ideal for hazmat environments.

Tactical Video Recording (TVR)

Automatically record all the information shown on the IMD for review later.

3M Scott Sight Mobile Configurator Application

iOS® and Android™ compatible application.

Allows configuration of IMD for:

- °F or °C temperature readout
- Change icon layouts
- Configure Sight Pro Package features
- Modifying display brightness
- Modifying display colors (gray, fixed or dynamic)

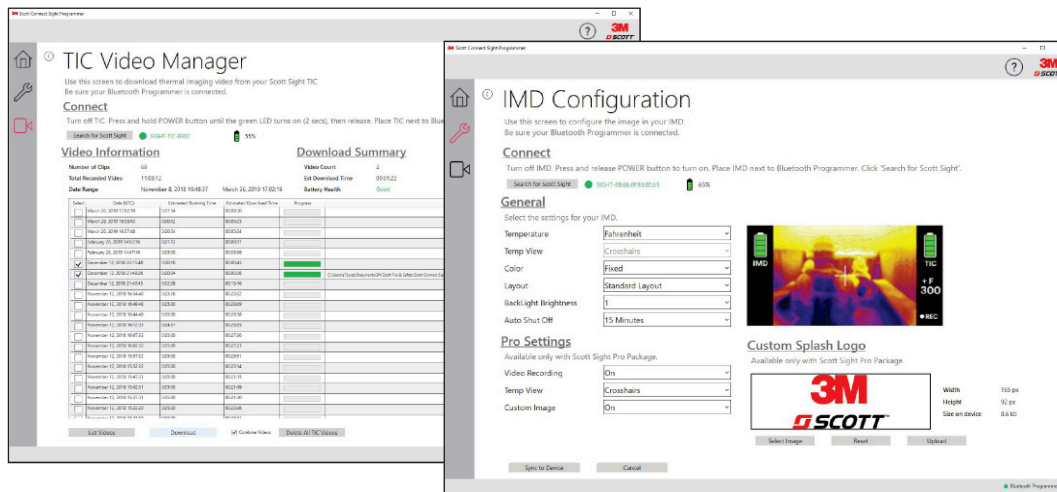

3M™ Scott™ Sight Programmer

The 3M Scott Sight Programmer utility application is a software interface for 3M Scott Sight. Using this software and the 3M™ Scott™ Universal Bluetooth® Programmer, you can choose from several options:

- Configure the Sight in-mask display
- Download recorded thermal video from the Sight thermal imager
- Pair a Sight in-mask display with a Sight thermal imaging camera
- Upgrade firmware on the Sight thermal imager (Pro Package required)

This software is compatible with both 64-bit and 32-bit Windows-based systems (Windows 7, 8 or 10). The Universal Bluetooth Programmer is compatible with Sight 1.0, 1.1 and 1.2.

Universal Bluetooth Programmer (P/N 201243-02)
