

Confine small workplace emergencies

PUAFER008 Confine small emergencies in a facility

Course aim

This course is designed to provide students with the necessary skills and knowledge to confine small workplace emergencies in line with legislative requirements, workplace policies and procedures, and accepted safe practices. Students are taught preparation for emergency situations; identifying and assessing the emergency; safely confining the emergency where possible; initial use of initial response equipment and reporting workplace emergency response that may arise in everyday working environments.

Course objectives

By the end of the course, the student will be able to:

Demonstrate knowledge of:

- Identification and assessment of hazards
- Actions to be followed when initial response action is not safe
- Appropriate initial response equipment
- Facilities that may be used to confine emergencies
- Hazards involved with initial response action
- Implications of the incorrect use of equipment
- Limitations of initial response equipment
- Limitations of use of emergency control equipment or facilities
- Methods of extinguishment
- Safe use of initial response equipment
- Situations that must not be responded to because of the risk
- Types of emergencies
- Workplace procedures

Demonstrate skills in the following:

- Complete a Safe Work Method Statement (SWMS)
- Communicate in an effective manner
- Give and follow instructions
- Implement facility procedures
- Re-stow initial response equipment
- Risk management
- Use initial response equipment
- Manage a small facility emergency

On successful completion students will be issued with:

Statement of Attainment in PUAFER008 Confine small emergencies in a facility

Course prerequisite

No prerequisite is required for the completion of this unit.

Course assessment

Students will be assessed to determine their competency in this course both theoretically and practically.

The theory assessment consists of multiple choice and short answer questions.

The practical assessment will require students to contain a small workplace emergency.

Course duration

4 hours

(The time noted above includes a break.)

Trainer ratio

10 students per trainer

Course location

Courses are primarily delivered at our facilities:

3M Australia,
93 Derby Street, Silverwater NSW
The Construction Training Centre,
460 Beaudesert Road, Salisbury QLD

However, courses can be delivered at your worksite if required. In this instance your employer will confirm there are suitable facilities on site to deliver the training.
