

3M™ Standard Delineator

# Safer Lane Delineation with better visibility

The revolutionary Standard Delineator from 3M combines a superior product design with Type XI DG3 reflective sheeting to increase visibility from a longer distance in tough Indian road conditions

3M™ Standard Delineator has a uniquely designed ellipsoidal body that offers unparalleled visibility for road users travelling in continuous curves. 3M Diamond grade reflective sheeting on both sides of the delineator offers long distance visibility for safer driving.

# 3M™ Standard Delineator

Day view

Night view

Feature	Advantage	Benefits
Superior Ellipsoidal Design	Wider entrance angle visibility	Increases visibility at night for safer driving
Type XI Grade Reflective sheeting	Long distance visibility in day & night, rainy / foggy weather	Provides longer response time for safer driving
Grooves across the length of delineator	Protects reflective sheeting corners	Prevents vandalism of reflective sheeting
IRC Standards	Meets IRC Standards	Guides the vehicles to follow the road geometry with increased visibility
Optimized body design	Easy to transport and install	Safe & aesthetic design
High performance metal delineator	Better performance	Increased durability
