3M™ Speedglas™ Manufacturing Location Announcement Update
3M™ Adflo™ Turbo Assemblies, 3M™ Speedglas™ Quick Release (QR) Welding Helmets, and Various Accessories

To improve our supply chain capabilities and accelerate our core focus of innovating the 3M™ Speedglas™ Welding Safety portfolio, we will be moving manufacturing of 3M™ Adflo™ Turbo Assemblies, 3M™ Speedglas™ Quick Release (QR) Welding Helmets, and various accessories from Sweden to our manufacturing facility in Poland.

No changes will take place on existing products, packaging, or pricing for the items listed below. The only change will be the ordering process utilizing a new 3M ID and 3M UPC number following implementation. Due to the extensive planning and preparation that has taken place over the past several years, we do not anticipate any product disruptions throughout this transition. Additionally, our site in Poland has been manufacturing many of our current Speedglas™ solutions today, along with other products across the Personal Safety Division and 3M Company.

Implementation Timeline:

All products highlighted below are expected to transition on March 1, 2019, but are subject to change based on inventory depletion.

3M Part #	Marketplace Formal Name	OLD 3M ID	OLD UPC	NEW 3M ID	NEW UPC	Estimated Transition Date*

*Estimated transition dates are subject to change based on inventory depletion. Final transition will be announced via B-Com.

The four products listed below are estimated to transition in March 2019, but are subject to change based on inventory depletion. Orders utilizing the old 3M ID & UPC numbers will be accepted while supplies last. Once depleted, orders will not be accepted and the new 3M ID & UPC numbers will need to be utilized.
