

Rainbow Passage*

When the sunlight strikes raindrops in the air, they act like a prism and form a rainbow. The rainbow is a division of white light into many beautiful colors. These take the shape of a long round arch, with its path high above, and its two ends apparently beyond the horizon. There is, according to legend, a boiling pot of gold at one end. People look, but no one ever finds it. When a man looks for something beyond reach, his friends say he is looking for the pot of gold at the end of the rainbow.

Pasaje Arcoiris (Española)*

Cuando la luz del sol ilumina a las gotas de lluvia en el aire, estas actúan como un prisma y forman un arco iris. El arco iris es una división de luz blanca dentro de muchos colores bellos. Estos toman la forma de un arco largo redondeado con su paso alto arriba, y sus dos extremos aparentemente están más allá del horizonte. Hay, de acuerdo con la leyenda, un recipiente con oro hirviendo en un extremo. La gente mira, pero nadie nunca lo encuentra. Cuando un hombre busca algo más allá del alcance, sus amigos dicen que él está buscando el recipiente de oro en el extremo del arco iris.
