Smart Lock technology meets connected capability

The 3M™ DBI-SALA® Smart Lock Connected Self-Retracting Lifeline is designed to help increase your safety intelligence with integrated connected capability for smart PPE management. This product can enable the following:

- **Improved incident reporting and response:** You can now know the date and time of any brake event via the mobile and web app. The SRL also has a service light to indicate whether a brake event occurred.

- **Improved compliance:** The SRL tracks usage, such as extensions, pawl locks, and active time, so you can better understand when and how the product was used.

- **Improved inventory management:** With the combination of brake event data and usage statistics, you can better assess your inventory of SRLs.

- **Plus all the mechanical features and benefits of Smart Lock SRLs.**
3M™ DBI-SALA® Smart Lock Connected SRL

The industry’s first digitally connected SRL

FAQs

**Durability**
- Water intrusion tested: 5 minute full submersion, 6 hour spray on keypad
- Impact tested: dropped from 3 feet onto concrete surface on every side

**Weather**
- SRL operating: -40°F to 130°F
- Electronic data logging: -20°F to 130°F. Relative humidity 5-95%, non-condensing

**Power**
- Replaceable lithium 9V battery
- Battery life: 1-2 years*
- Power not required for SRL function

**Memory**
- Onboard memory for data storage
- SRL can hold over 12 months of usage data*

**Connectivity**
- SRL connects to mobile device via Bluetooth®
- SRL to mobile device Bluetooth range is over 50 feet*
- Mobile device sends data to cloud via Wi-Fi or cellular network

**Mobile Devices**
- Android™ devices running Android OS 4.4+ and Bluetooth 4.2+
- iPhone® devices with iOS v11+

*Value is an estimate based on moderate use in normal conditions. Actual amount may vary.

**Key Applications**

**Construction**
- Give your site safety manager an additional monitoring tool
- Monitor wear and tear across the SRL inventory more efficiently

**Rental Companies**
- Trace history of damage and use

**General Industry**
- Verify when SRLs are used

**Don’t forget...**
- This does not eliminate the need for pre-use or annual inspections
- You must still follow IFU for recommended inspection cycles and use conditions
