

Certificate of Compliance – Packaging

Dear Valued Supplier,

As stated in the [3M Supplier Responsibility Code](#), 3M requires its suppliers to assure full compliance with all applicable environmental laws, including integrating environmental responsibility into their operations to minimize the effects on the community, environment and natural resources, while safeguarding the health and safety of workers and the public. 3M is requesting confirmation of the materials provided to 3M are “Adsorbable Organic Halides” (AOX) compliant.

Please return this form to the 3M Contact shown below within **10 working days**.
