

3 Scotch-Brite™

Ref 961

Twist Lock™ Pad Holder

Technical Data

TD 219

Date : August 2011

Supersedes : April 2010

Author : FG

Description :

Twist Lock™ Pad Holder is a molded plastic handle with integrally molded hooks which grip non-woven pads tightly. The gripper surface allows removal and remounting of cleaning pads.

Product Advantages :

- Protects hands from heat and chemical
- Makes cleaning faster and easier
- Durable, long life
- Fits with all pads range
- Can be sanitized after use.

Where and When to Use :

This handle tool is designed to be used in conjunction with most Scotch-Brite™ hand pads (Ref. 350, 450, 550, 76, 96, 86, 98, 90...). It is specially recommended when cleaning large, flat, and/or heavily soiled surfaces : walls, steam kettles, counter tops, refrigerator.

Directions for Use :

- Select the appropriate hand pad for the cleaning job. Attach pad by pressing against the gripper hooks and twisting the holder against the pad.
- To remove pad : grasp a corner and peel pad from handblock.
- Note : do not use above 100°C.

Maintenance :

- If the Twist-Lock™ gripping face becomes filled with debris, clean it with a nylon brush and rinse thoroughly.

Product Characteristics :

- Heavy duty plastic
- Light grey color
- Size : 89 x 63 x 121 mm
- Weight : 72 g per unit

Packaging :

- 10 in a case

Product Origin :

- Made in USA.
- Source of Supply : 3M France, S.O.A.
