

Privacy Filter Screens
for your on-screen
data protection

Safety guide

1 Please now ensure all devices are in flight-safe mode.

2 We would also like to ensure your on-screen data remains private to you on today's flight.

3 Remember, you never know who could be looking at your screen.

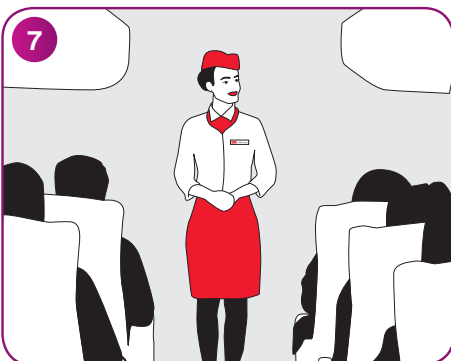

4 To assist with on-screen data protection, we will be providing 3M™ Privacy Filters on today's flight.

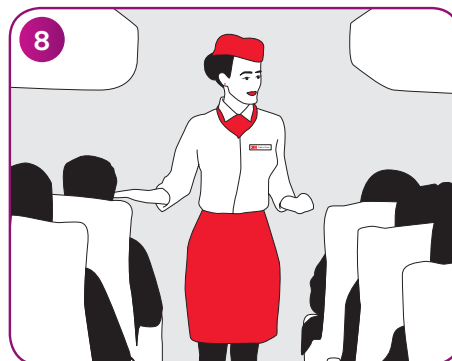

5 In the event of prying eyes, the filter is attached, as shown by your flight attendant now.

6 Please fit your own filter before helping others.

7 As you can see, your on-screen data cannot be viewed by prying eyes from here... here... or here.

8 We will now carry out our final safety checks.

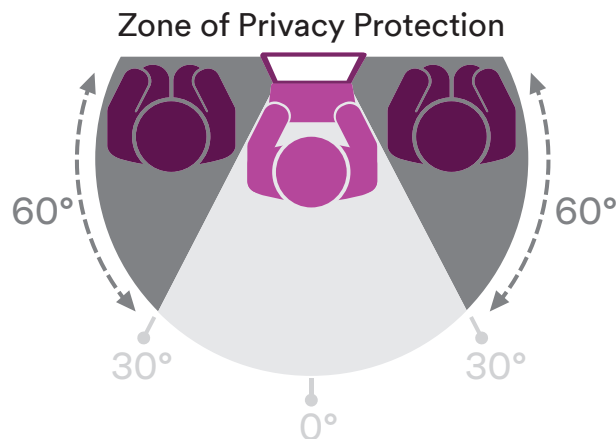

9 And wish you a pleasant, productive and secure journey.

3M™ Privacy Filters. Keeping visual hackers in the dark.

Science. Applied to keeping visual hackers in the dark.

Help protect all your screens, and the information displayed on them, with 3M™ Privacy Filters and Screen Protectors.

- ▶ 3M™ Privacy Filters fade to black starting at the 30° side angle
- ▶ Effective “black out” privacy from side views outside the 60° viewing angle
