RelyX™ Luting Cement
The number one cement for routine crown and bridge cementation.

- Easy to mix, load and seat due to its mousse-like consistency
- Easy clean-up
- Zero solubility for enhanced marginal integrity
- High fracture toughness
- Sustained fluoride release
- Virtually no post-operative sensitivity

Great performance. Easy to use.
Easy-to-use RelyX™ Luting Cement from 3M ESPE is the luting cement more dentists trust. RelyX Luting cement is a resin-modified glass ionomer cement used for routine cementation of PFM and metal crowns, bridges, inlays/onlays, crowns made with all-alumina or all-zirconia cores such as Procera® AllCeram, endodontic posts and orthodontic appliances.

Like all true glass ionomer cements, RelyX™ Luting Cement from 3M ESPE provides sustained fluoride release.

1 3M ESPE laboratory testing according to ISO 9917: 1991 (E) acid erosion test.
RelyX™ Luting Cement

What the Experts Say

More dentists use RelyX™ Luting Cement from 3M ESPE than any other resin-modified glass ionomer permanent cement. Industry experts agree with their choice. Try RelyX Luting cement and discover the benefits for you and your patients.

“In a recent survey, respondents indicated ‘clear dominance’ of RelyX Luting cement as the brand used most with single-unit crowns.”
An independent non-profit dental products testing laboratory, December 2001

“You get all the great properties of a glass ionomer combined with the important resin cement advantages of zero solubility and high fracture toughness…”
Dental Economics, March 1996

“Dispensing and mixing RelyX™[Vitremer™] Luting Cement was judged to be very easy. The mousse-like consistency and the viscosity allow easy placement into the restoration. It stacks well and ‘doesn’t run all over.’ Restorations seat completely with very little pressure and excess cement is easily removed after set. Many consultants appreciated the simplicity of RelyX Luting cement and the lack of post-operative sensitivity.”
THE DENTAL ADVISOR PLUS, Vol. 5, No. 3 May/June 1995

Ordering Information

RelyX™ Luting Cement Kit 3505
Kit includes:
- 16 g RelyX Luting cement powder/spoon
- 9 ml RelyX Luting cement liquid
- Mixing pads
Includes illustrated technique guides and instructions for use
