

Upgrade to a universally simpler restorative.

Conversion Guide

3M™ Z100™ Restorative to 3M™ Filtek™ Universal Restorative

Why upgrade to 3M™ Filtek™ Universal Restorative?

- 3M Filtek Universal Restorative features **Nanocomposite technology** which improves strength, polish and aesthetics, a vast improvement over Z100 Restorative. Filtek Universal Restorative will polish quickly to a high gloss, and polish can even be improved with toothbrush abrasion.
- 3M Filtek Universal features **NaturalMatch technology** (made up of nanofillers, proprietary low-stress monomers and pigments) which enables one-shade aesthetics to blend more naturally with dentition.
- 3M Filtek Universal's RRP is (priced) below Z100 Restorative, so you get the latest technology from 3M and save money.

3M™ Filtek™ Universal Restorative vs. 3M™ Z100™ Restorative.

✓ Better Performance

	3M™ Z100™ Restorative	3M™ Filtek™ Universal Restorative
Filler Technology	Microhybrid	✓ Nanocomposite
