

Product Description

3M™ Dusting Sheets is a unique floor dusting material that captures and holds dust and dirt. 3M™ Dusting Sheets can be adapted to almost any flat mop system.

Features

- The dusting sheets can be used on both sides to increase your effective floor dusting area.
- The open construction of the sheet provides space for dirt and dust to be captured.
- The proprietary coating of the fibers helps capture and hold dirt, dust, hair and sand.
- The open construction helps reduce drag when floor dusting.
- The proprietary fibers pick up even when wet.
- Perforated rolls allow you to customize the sheet size in increments of 152 mm.

General Use Directions

Preparation

1. Tear off the needed amount of dust sheets to cover the width of the holder.
2. Place the sheet on the floor and place the holder directly on it, or apply the sheet on the holder and then put the system on the floor. You are now ready to dust the floor.

Note: When the sheet no longer picks up debris, remove the cloth from the holder, flip the cloth over and reapply it to the holder. When both sides of the cloth are completely soiled, replace the cloth.
