**3M™ DBI-SALA®**

**Flush Core Mount Base High Capacity with Top Plate**

**Technical Data Sheet**

**Description**

3M™ DBI-SALA® Davit Arm Systems are designed for manhole and confined space entry/retrieval applications.

The Flush Core Mount Base units are constructed of lightweight materials including high-strength aluminium. The davit pivots for ease-of-rescue and has adjustment for overhead clearance restrictions.

The Davit Arm adjusts to fit most standard entries. Many other portable and fixed bases are available to suit any jobsite need.

Recessed fastener pockets allow for bolt-in installation into existing concrete. Flush mount design allows passage of traffic and eliminates trip hazards when not in use.

Comes with PVC sleeve liner.

**Specifications**

**Standards**

When used with davit arm: AS/NZS 5532:2013

**Mast Compatibility**

Compatible with 3M™ DBI-SALA® Davit Mast Extensions, High Capacity (10.1 cm /4’ diameter): 8000112, 8000113, 8000114, 8000115.

Not compatible with any other non 3M™ davit mast extension or non 3M™ adaptor.

*See Instructions For Use (IFU)*
Installation requirements

Structure:
Horizontal concrete

Fixing to the Structure:
4 x M16 fasteners.

Designed for a central Ø128.5 mm (5.06") core hole in concrete.

Resistance Required*:
Structure must be capable of withstanding a minimum 13.5 kNm moment and a minimum 12.0 kN vertical force.

Installation:
Structure resistance validation and installation execution must be performed by competent person(s).

*See Instructions For Use (IFU)
