

IMPORTANT SAFETY RECALL NOTICE

3M™ Precision Standing Desks, SD60B and SD70B

May 2019

To: End User

Our records indicate that you purchased one or more 3M™ Precision Standing Desks. In cooperation with the Consumer Product Safety Commission (CPSC), our supplier is voluntarily recalling the 3M™ Precision Standing Desks, SD60B and SD70B, sold or distributed prior to May 14, 2019.

If not used properly, the workstation can malfunction, causing the gas cylinders to separate and forcefully discharge, posing a hazard of serious or fatal injury to consumers. There have been two incidents reported which resulted in property damage. No injuries were sustained.

Therefore, our supplier is conducting a field-replacement program for these cylinders. To make this as simple as possible for you, we have arranged for a qualified technician to replace the cylinders at your location at no cost to you. Please call **1-888-807-0765** to schedule replacement cylinders -- estimated to take about 30 minutes per desk.

When used within the product's specifications and intended purpose, there is no indication the product will malfunction. However, it is important that you use both levers to operate the desk, do not exceed the recommended load capacity of 35 lbs. for the SD60B and 45 lbs. for the SD70B as illustrated on the reverse side of this notice and do not force the desk up or down.

We apologize for any inconvenience this may cause but appreciate your understanding of this important field replacement program. 3M is committed to ensuring that our products operate safely and effectively. Please call us toll free Monday through Friday at **1-888-807-0765** between the hours of 8:00 AM and 8:00 PM EST to schedule a field fix. For further information go to www.3M.com/standingdeskrecall.
