

3M™ Personal Safety Division Global Standards

The PSD Global Standards Document is a comprehensive list of standards that may be relevant to 3M PSD products globally. The document includes listings for both performance standards, and selection & use standards that can be searched by several categories, including by country, product category, and standard number. The document includes guidance on how and/or where to access specific standards. The document is reviewed annually and updated as needed.

Copyright: It should be assumed that all standards are copyright protected. No portion of any standard should be reproduced in any form, electronic or otherwise, for any purpose other than personal use, without prior written permission of the issuing organization.

Finding standards

The first place to look for any standards is [Atlas, the 3M business support library portal](#).

The 3M Science Library subscribes to several standards from many issuing organizations. Additional access is available through 3M corporate memberships and subscriptions. What this means is these standards are available to you at NO CHARGE. This includes standards from:

- ASTM
- CGA
- EN
- NFPA
- UL
- U.S. Federal/Military Specification Standards
- And More

Visit ATLAS for a complete list and links to these standards.

ANSI IBR Standards (Standards Incorporated by Reference in U.S. Code of Federal Regulations) can be viewed on the ANSI IBR Standards website for no charge (includes ANSI, ISO, etc). Access Atlas for the link.

Engineering Workbench is a subscription-based standards platform providing online access to ISO, European Norms (EN), AAMI, NFPA and others. 3M has a subscription with Engineering Workbench and standards listed under "My Subscriptions" may be downloaded at no charge. Use Engineering Workbench as a starting point for finding standards, but note, other vendors may provide a better price for purchasing standards.

Didn't find your standard available at no charge?

Standards that are not available from ATLAS can be purchased from any vendor or issuing organization with your PCard. These standards vendors accept the 3M PCard:

- [IHS Markit](#)
- [TechStreet](#)
- [SAI Global](#)

Also, some organizations, including ISEA <https://safetyequipment.org/>, offer significant discounts on standards due to 3M corporate memberships. Visit Atlas for a complete list and links to these organizations.

Contact the [3M Science Library via 3M Assistance](#) or 651-575-1300 for these services:

- Standard purchasing assistance (to help you find the best price)
- Standards subscription service purchasing assistance (to help you find the best price and service)

[IOS: International Organization for Standardization](#)

ISO is an independent, non-governmental international organization with a membership of 164 national standards bodies.

Through its members, it brings together experts to share knowledge and develop voluntary, consensus-based, market relevant International Standards that support innovation and provide solutions to global challenges.

CEN: European Committee for Standardization

CEN, the European Committee for Standardization, is an association that brings together the National Standardization Bodies of 34 European countries.

CEN is one of three European Standardization Organizations (together with CENELEC and ETSI) that have been officially recognized by the European Union and by the European Free Trade Association (EFTA) as being responsible for developing and defining voluntary standards at European level.

CEN provides a platform for the development of European Standards and other technical documents in relation to various kinds of products, materials, services and processes.

CEN supports standardization activities in relation to a wide range of fields and sectors including: air and space, chemicals, construction, consumer products, defense and security, energy, the environment, food and feed, health and safety, healthcare, ICT, machinery, materials, pressure equipment, services, smart living, transport and packaging.

Source: [European Committee for Standardization](#)

Member Countries

CEN's National Members are the National Standardization Bodies (NSBs) of the 28 European Union countries, the Republic of North Macedonia, Serbia and Turkey plus three countries of the European Free Trade Association (Iceland, Norway and Switzerland). There is one member per country.

Partner Organizations

The status of 'Partner Organization' is addressed to those organizations having an interest for cooperation at overall corporate and technical level with CEN.

Organizations	Website
The European Association for the Co-ordination of Consumer Representation in Standardisation	ANEC
European Environmental Citizens Organisation for Standardisation	ECOS
The European Trade Union Confederation	ETUC
European Trade Union Institute	ETUI
Association of the European Fire and Security Industry	EURALARM
European Construction Industry Federation	FIEC
Alliance of European medical technology industry associations	MedTech Europe
Europe's Technology Industries	ORGALIM
Small Business Standards	SBS

CEN Affiliates

The 'National Standardization Bodies' (NSBs) of those countries formally recognized by the European Union as being potential candidates for EU membership can become a CEN "Affiliate", according to the CEN-CENELEC Guide 12: The concept of Affiliation with CEN and CENELEC. One criterion is for them to integrate fully the 'European Standardization System' (ESS) in order to achieve technical harmonization within the framework of the 'European Single Market'.

The CEN Affiliates's goal is to adopt the CEN catalogue of standards and to bring a meaningful contribution to the technical work carried out in the CEN Technical Committees.

Country	Organization	Website
Albania	Institute for Standardisation of Bosnia and Herzegovina (BAS)	DPS
Bosnia and Herzegovina	General Directorate of Standardization-Albania	BAS
Montenegro	Institute for Standardization of Montenegro	ISME

Companion Standardization Bodies

Companion Standardization Body (CSB) status is open to a National Standardization Body (NSB), which is a member or corresponding member of the International Organization for Standardization (ISO). Interested NSBs work closely with CEN to achieve technical harmonization and contribute to the removal of technical barriers to trade between their country and Europe.
