

# 3M™ Airline ‘Y’ Piece

## Technical Data Sheet

### Description

Constructed from nickel plated brass, with 2 Female Socket CEJN type couplings and 1 Male coupling, the Y-piece allows a single length of hose to be split into two branches.

A Y-piece is usually used at the end of a long length of hose and then followed by 3 metre or 15 metre lengths of hose.

### Applications

The airline Y-piece is specifically designed to allow the splitting of a single airline hose into two airline hoses.

### Specifications

Components	Materials
Body	Nickel plated brass
