Clinpro™ Tooth Crème

0.21% w/w Sodium Fluoride Toothpaste
with Tri-Calcium Phosphate

Gentle on teeth.
Tough on tooth decay.

No added:

- Lactose
- Gluten
- Casein
- BPA

What's on your dental health forecast?

When it comes to dental health, many factors can increase your risk of tooth decay, including:

- High-acid, high-sugar diets
- A history of cavities
- Lost teeth due to cavities
- Orthodontic brackets
- Dry mouth caused by medication or medical conditions

Clinpro™ Tooth Crème helps give you extra protection without any extra steps.

Advantages of Clinpro Tooth Crème:

- Low foaming
- Pleasant mild vanilla mint flavour
- Replaces your regular toothpaste
- Contains a mild abrasive that gently removes stains to help clean and whiten your teeth

Important Patient Information

What is Clinpro™ Tooth Crème 0.21% w/w Sodium Fluoride Anti-Cavity Toothpaste?

Clinpro Tooth Crème contains fluoride as well as calcium and phosphate, which are components naturally found in saliva.

It is used to help prevent tooth decay and can be used in place of your usual toothpaste.

How do I use Clinpro Tooth Crème?

- Place a pea-sized amount of Clinpro Tooth Crème on a soft-bristled toothbrush and brush teeth as normal (recommended time is 2 minutes).
- After brushing, spit out. Rinsing is optional. Please check with your dental professional.
- Use twice daily or as directed by your dental professional.
- The optimal times to brush with Clinpro Tooth Crème are first thing in the morning and just prior to going to sleep.

Children under 6 years of age:

- To use only on the advice of a dental professional.
- Clinpro Tooth Crème should only be used under direct adult supervision.
- Use only a pea-sized amount.
- After brushing, your dental professional will recommend:
 - Spit out without rinsing with water, or;
 - Spit out and rinse thoroughly with water.
- Do not swallow.
- Use twice daily or as directed by your dental professional.
- The optimal times to brush with Clinpro Tooth Crème are first thing in the morning and just prior to going to sleep.

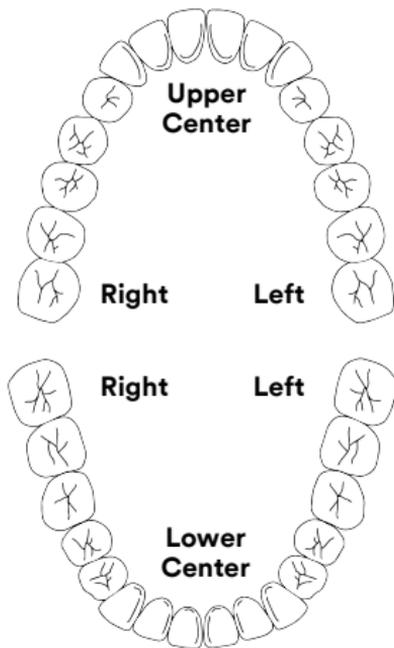

Where should I go for more information about Clinpro Tooth Crème?

- Talk to your dental professional, healthcare provider or visit: www.3M.com.au/protectmyteeth or www.3M.co.nz/protectmyteeth

Always read the label and use as directed. Keep out of reach of children under 6 years of age. Children with baby teeth (developing dentition) require adult supervision to minimise or prevent swallowing of excessive amounts.

To be completed by your dentist

Your examination has revealed the following:

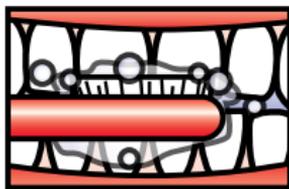

Notes:

Directions For Use
