Warm with confidence.

1 Why warm 3M Composites?
- Warmed composites are more fluid, for easier handling
- Warming may improve adaptation of 3M composite to tooth structure
- Warming lowers extrusion force

3M offers the first dental composite cleared by the FDA for warming!**

2 Get performance with peace of mind.

Physical Properties Unchanged:³
- Diametral tensile strength
- Flexural strength
- Depth of cure
- Flexural modulus
- Color stability

3 3M offers the first dental composite cleared by the FDA for warming!**

*Recommended heating temperature
**3M Filtek™ Universal Restorative
1 Based on a 3M sponsored in vitro study. 11 dentists placed 88 Class II MOD restorations. Teeth were microscopically examined for flaws, defects and voids. Comparisons made between techniques and operators.
2 3M Internal Data
3 When warmed according to our IFU (up to 70°C or 158°F for up to 1 hour).
Which 3M™ Filtek™ Composites can be safely warmed?

**Universal Restoratives**
- 3M™ Filtek™ Universal Restorative
- 3M™ Filtek™ Supreme Ultra Universal Restorative
- 3M™ Filtek™ Supreme Ultra Flowable Restorative

**Bulk Fill Restoratives**
- 3M™ Filtek™ One Bulk Fill Restorative
- 3M™ Filtek™ Bulk Fill Flowable Restorative

---

**The science of safety**

3M has performed rigorous testing to ensure the safety of pre-warmed Filtek composites for both clinicians and patients.

- Toxicology testing has been completed for all recommended 3M products listed above.
- Extensive literature search and 3M pulp temperature testing confirm minimal heat transfer to the pulp.
- 3M is the first to offer a dental composite cleared by the FDA for warming.

---

**Tips for success**

You can safely warm Filtek Restoratives in as little as 5 minutes! Follow these general guidelines, and refer to the instructions for use for more information.

- **DO** heat flowable syringes up to 70°C (158°F) for up to 1 hour, up to 25 times.
- **DO** heat capsules to 70°C (158°F) for up to 1 hour.
- **DO** remove your composite from the heater after 5 minutes if it won’t be used immediately.

---

**DON’T**

- Do NOT use heat from a lightbulb, microwave, mug warmer or other unapproved heating devices. Only approved devices have been tested for safety and efficacy when warming select Filtek composites. Consult the Instructions for Use for more information.
