**3M™ SecureFit™  
Protective Eyewear**

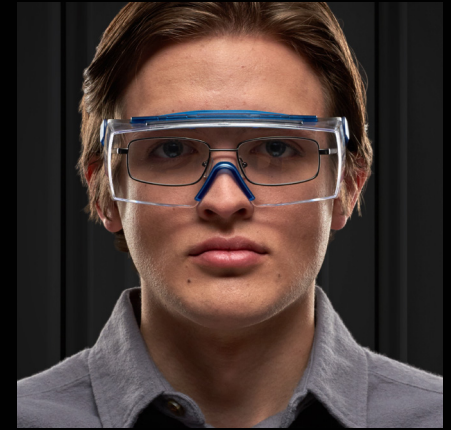

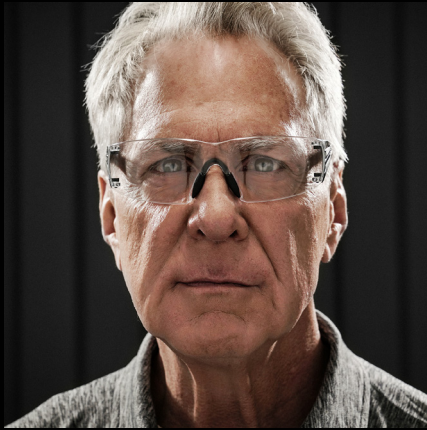

# Performance. Style. Comfort.

## 3M™ SecureFit™ Protective Eyewear

Protecting your vision on the job is important. But it doesn't have to mean sacrificing style or comfort. Get eyewear that performs — and looks good doing it. Featuring a comfortable fit and a sleek profile designed to work with other personal protective equipment, 3M™ SecureFit™ Protective Eyewear helps keep you safe and comfortable on the job.

## The science of comfort.

We collected data on head and face shapes around the world to develop a patented design that self-adjusts to individual head sizes. This design provides the same level of comfort to individuals across a diverse workforce.

Regardless of head size, from small heads to large heads, our 3M™ SecureFit™ Pressure Diffusion Temple Technology is designed to provide a secure and comfortable fit for an extended period of wear time.

## Designed to perform.

### Curved temples for enhanced security

Our design applies pressure on the less sensitive back of the head instead of the temples, achieving a comfortable fit even during rapid head movement.

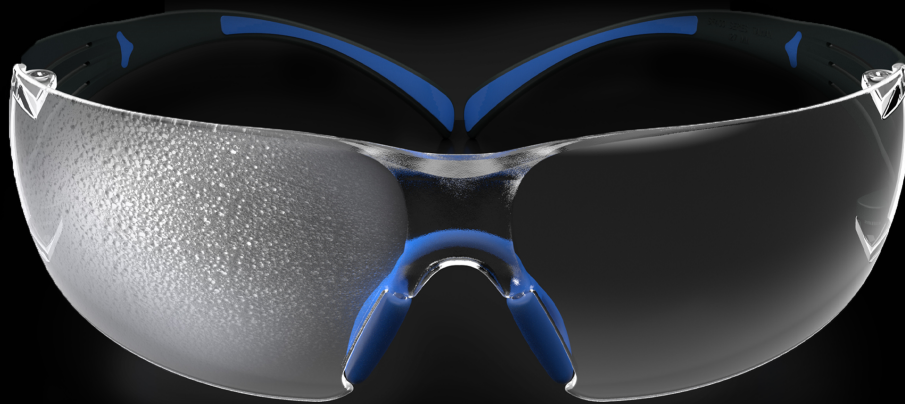

### 3M™ Pressure Diffusion Temple Technology

3M's innovative temple design features slotted ribs that provide comfortable pressure equalization, allowing the temples to flex and self-adjust to the size of the wearer's head.

## The benefits are clear.

Fogged lenses can be frustrating and dangerous. But 3M™ SecureFit™ Protective Eyewear models featuring 3M™ Scotchgard™ Protector Anti-Fog Coating can help workers see clearly for longer, thanks to an active ingredient that bonds the coating to the lens.

**Uncoated**

Microscopic water droplets bead up, forming condensation and fog, which obscure vision.

**3M™ Scotchgard™ Protector Anti-Fog Coating**

Reduced contact angle flattens water beads into a thin, transparent film that allows light to pass through.

### 3M™ Scotchgard™ Protector Anti-Fog Coating

- Resists 11x longer than traditional 3M™ anti-fog coatings, and up to 25 washings with water.\*
- Provides 7x better anti-scratch performance vs traditional 3M anti-fog coating for tough work environments.
- Designed for working in challenging situations, such as hot and humid conditions, indoor/outdoor work, physically demanding tasks and climate-controlled areas.
- Workers can feel confident wearing 3M eye protection that meets both the Impact-Rated Protector and Anti-Fog Performance (X) requirements of the ANSI/ISEA Z87.1-2020

# 500 Series

Contemporary safety glasses featuring a sporty, streamlined lens shape.

## PPE Compatibility

Sporty design with contemporary lens shape and a sleek profile of safety glasses that can combine well with other personal protective equipment.

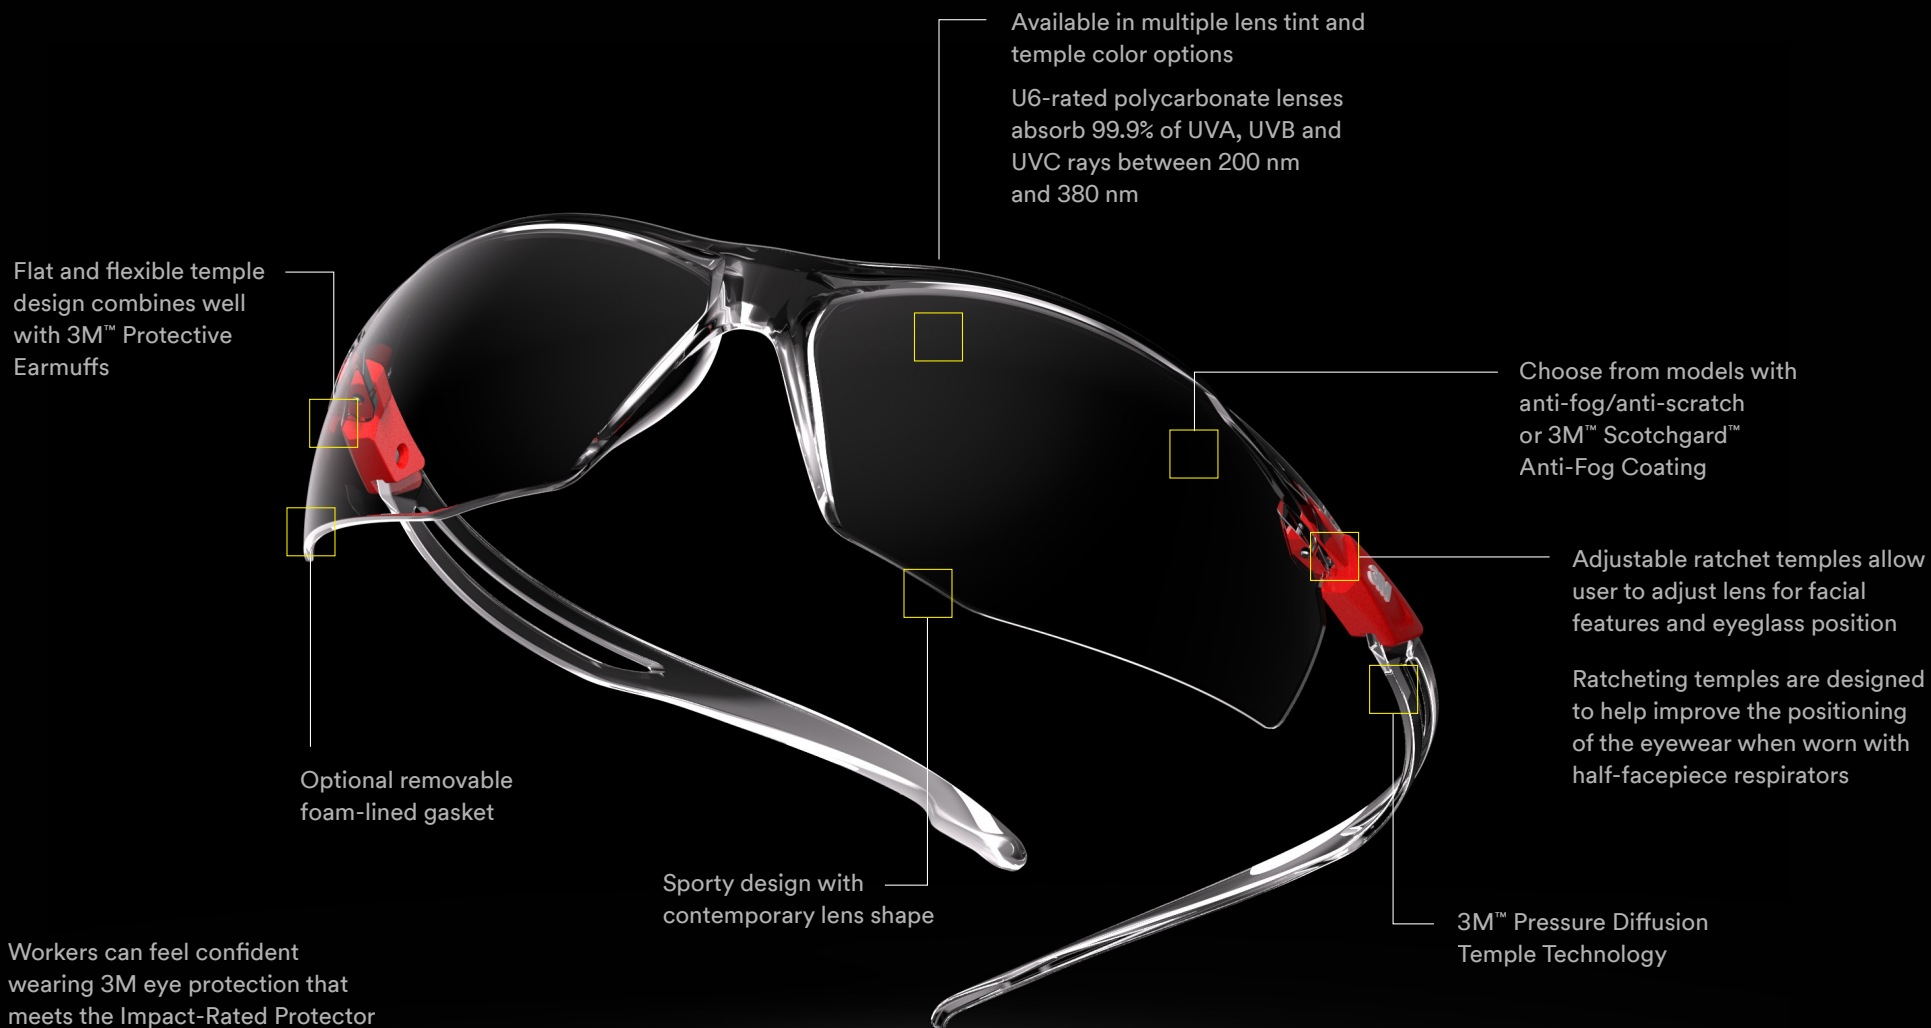

SecureFit's flat and flexible temple design combines well with 3M™ Protective Earmuffs

The adjustable ratcheting temples of the SecureFit™ 500 Series are designed to help improve the positioning of the eyewear when worn with half-facepiece respirators

# 500 Series

3M™ SecureFit™ 500 Series features a contemporary lens design coupled with adjustable ratchet temples and 3M™ Pressure Diffusion Temple (PDT) technology to help provide a more personalized fit. This sporty eyewear also offers self-adjusting colored temples, a variety of lens tints and models with Scotchgard™ Protector Anti-Fog Coating.

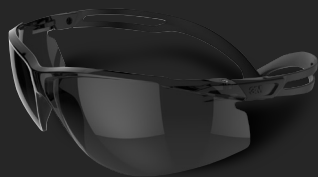

Workers can feel confident wearing 3M eye protection that meets the Impact-Rated Protector requirement of the ANSI/ISEA Z87.1-2020 Standard.

# 600 Series

Stylish dual-lens frame with  
a variety of lens options.

# 600 Series

Get quality, durability and versatility all in one with 3M™ SecureFit™ 600 Series Protective Eyewear. Choose from a variety of features, including 3M™ Scotchgard™ Protector Anti-Fog Coating, multiple lens colors and a removable foam-lined gasket.

Stylish yet sturdy frame

Available in multiple lens color options

U6-rated polycarbonate lenses absorb 99.9% of UVA, UVB and UVC rays between 200 nm and 380 nm

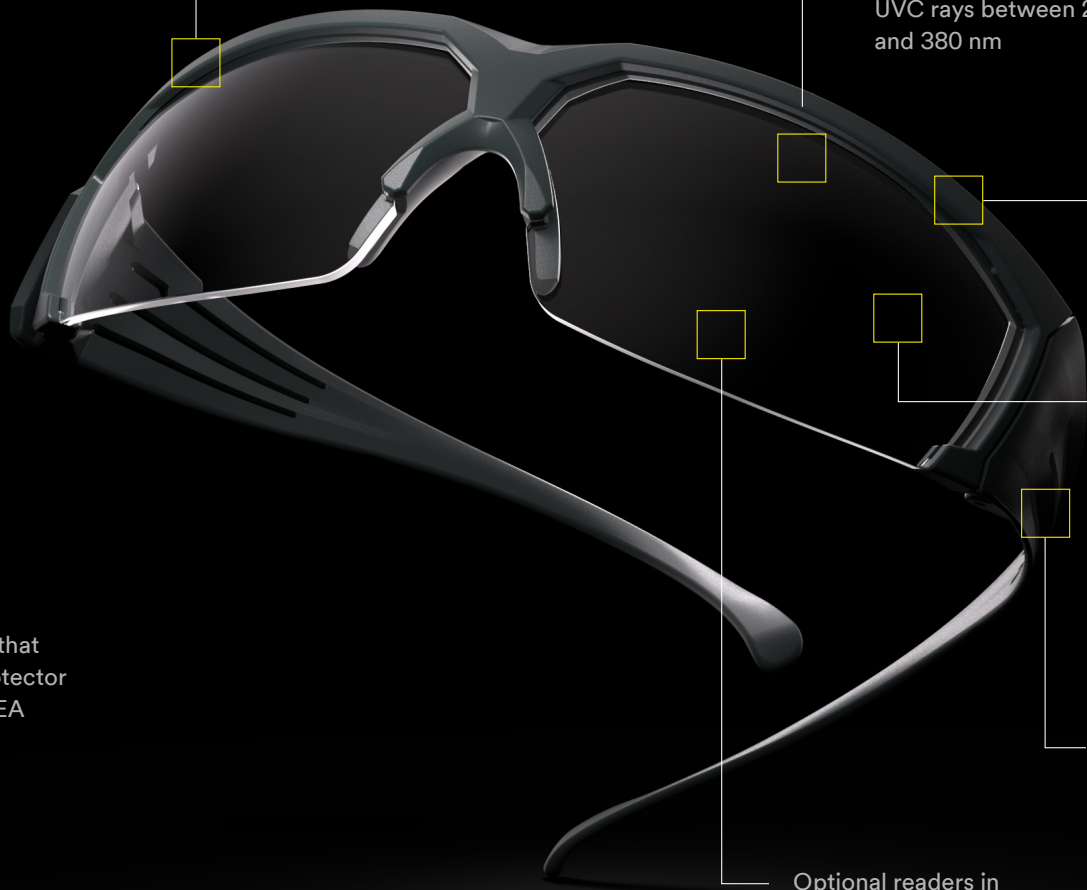

Optional foam gasket

All models available with 3M™ Scotchgard™ Anti-Fog Coatings

3M™ Pressure Diffusion Temple Technology

Optional readers in a range of diopters

Workers can feel confident wearing 3M eye protection that meets the Impact-Rated Protector requirement of the ANSI/ISEA Z87.1-2020 Standard.

# 3700 Series

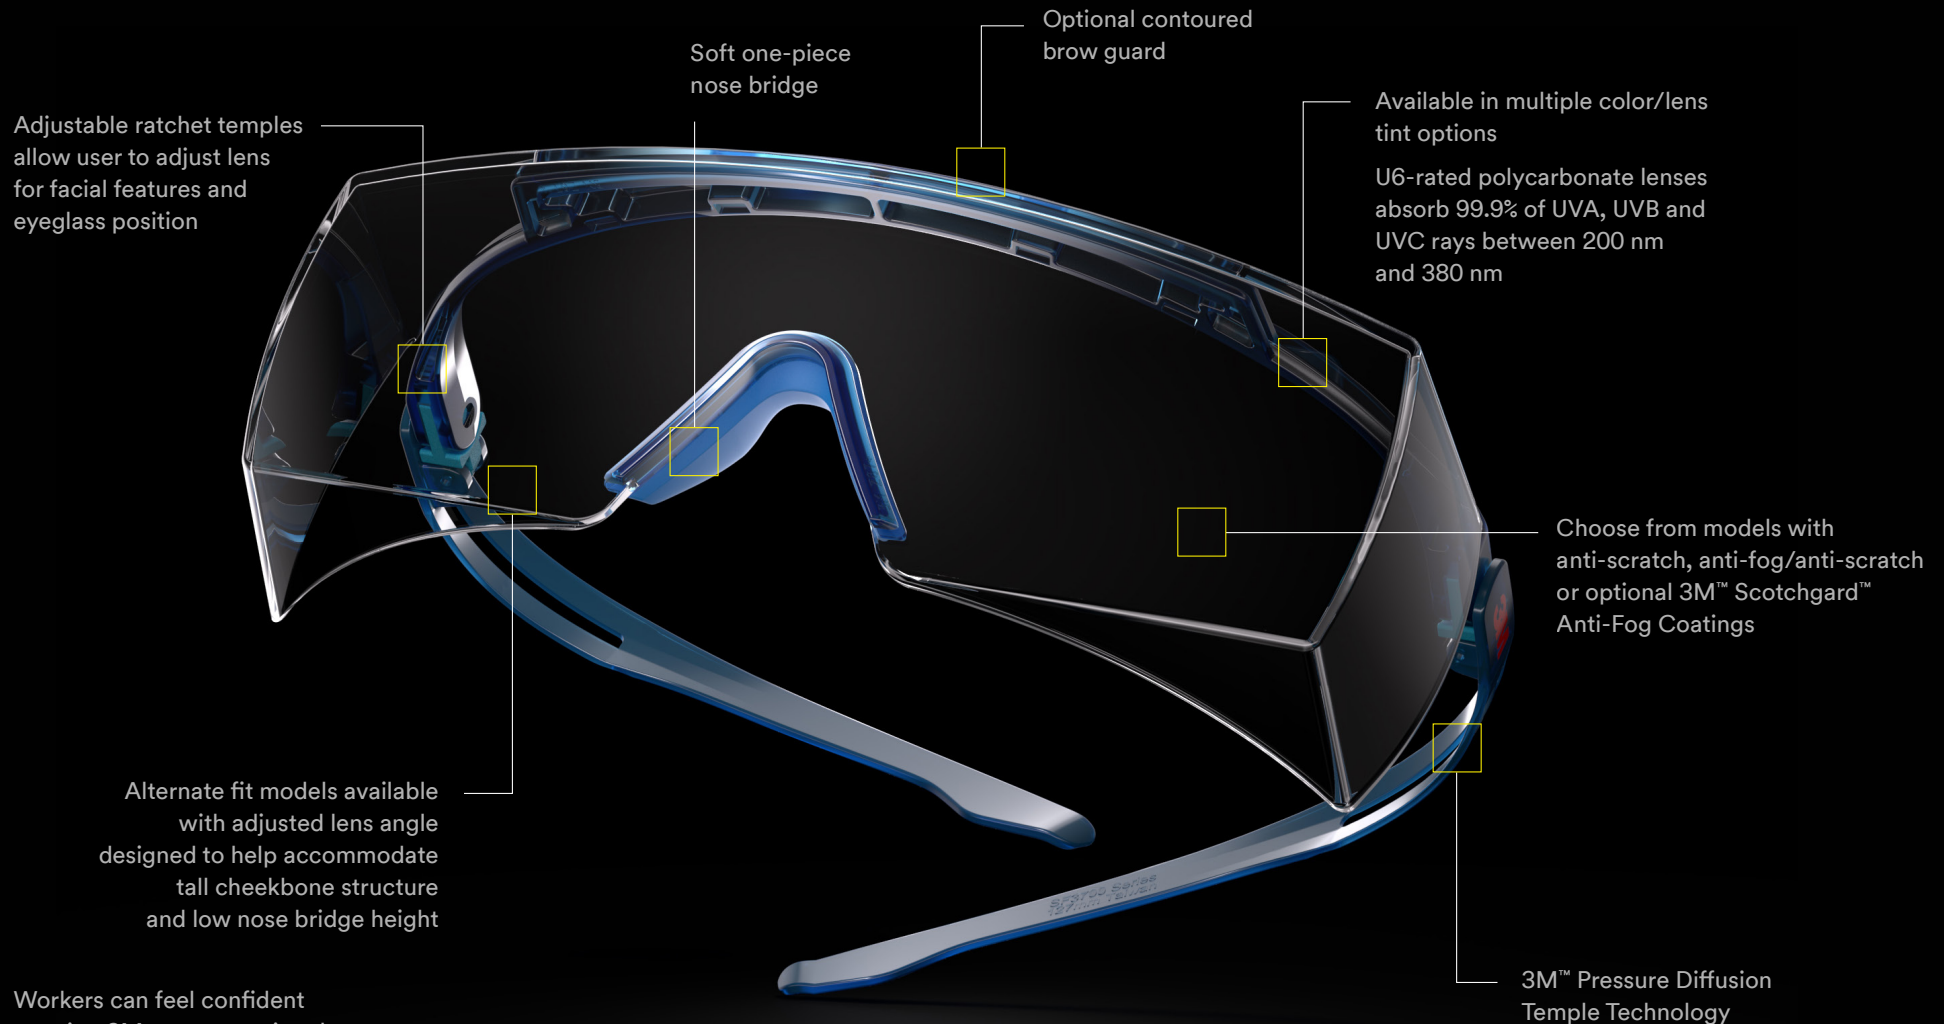

Over-the-glass protection designed with self-adjusting temple technology for all-day wearability.

# 3700 Series

3M™ SecureFit™ 3700 Series is designed to offer eye protection with all-day wearability for workers with prescription eyeglasses. Since prescription glasses may not be anti-fog coated, you can choose between a standard anti-scratch coating or 3M™ Scotchgard™ Protector Anti-Fog Coating.

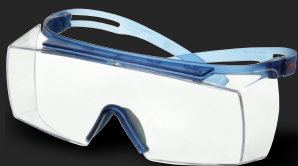

Workers can feel confident wearing 3M eye protection that meets the Impact-Rated Protector requirement of the ANSI/ISEA Z87.1-2020 Standard.

## Additional resources

### Fit testing

Eye injuries can occur even while wearing eye protection if the safety glasses do not fit properly. When fitted properly, eyewear should cover the soft tissue around the eye. Small spectacles on larger heads can leave exposed areas. Spectacles that are too large for a person can leave gaps. Selecting the proper eye protection for the task and ensuring proper-fitting eyewear can help to reduce worker eye injuries.

3M has developed a step-by-step method to ensure you can find your best-fitting protective eyewear, and can help you to validate properly fitting eyewear.
