

# 3M™ Perfect-it™ 1-Step Paint Finishing System

**Get a perfect finish without rubbing compound.**

### No more compound

Helps eliminate the longest, most painful step in the paint finishing process.

### Deeper, glossier finishes

Achieve an outstanding gloss with this one-of-a-kind abrasive, finishing material and pad system.

### Less buffing work

Spend less time on wrestling with that heavy buffer.

### Cleaner jobs

Make less mess, with no compound sling, wool fibres or lint.

### Reduced rework and comebacks

Don't risk burn through on the compounding step or when removing compounding swirl marks

### Designed for ease of use

Whether you're a newbie or a master technician, this system is quick to learn and even quicker to use.

## A Complete System

### Defect Removal

Use a dry P1500 or P2000 3M™ Hookit™ Purple Finishing Film Disc.

Sand to remove dirt nibs and other paint defects and level excess surface texture, matching the texture of surrounding panels.

### Scratch Refinement

Refine the scratches using a 3000 grade 3M™ Trizact™ Hookit™ Foam Abrasive Disc.

Dampen disc and area to be sanded with water using a spray bottle, and make 4-6 passes using a north-south, east-west pattern.

### Micro-scratch Refinement

Remove previous scratches using an 8000 grade 3M™ Trizact™ Hookit™ Foam Abrasive Disc – use in place of compounding!

Dampen disc and area to be sanded with water using a spray bottle, and make 4-6 passes using a north-south, east-west pattern.

### Final Polish

Create a deep glossy finish with our specially developed 3M™ Perfect-It™ 1-Step Finishing Material and purple 3M™ Perfect-It™ 1-Step Foam Finishing Pad.

Wipe with a clean 3M™ Perfect-it™ Detailing Cloth.

For darker colours we recommend finishing with the 3M™ Perfect-it™ Ultrafine Machine Polish with our 3M™ Perfect-it™ Ultrafine Polishing Pad (blue).

# Achieving a deeper, glossier finish with 1-Step polishing.
