

# Filtek™

Supreme  
Flowable Restorative

## Now our most popular flowable is easier to inject.

3M™ Filtek™ Supreme Ultra Flowable Restorative is available in a new ergonomic syringe. Designed for improved comfort and easier injection, this new product is called 3M™ Filtek™ Supreme Flowable Restorative.

### Reduce bubbles and waste

Virtually no bubbles or material “run-on” during dispensing gives you better control.

### No more guessing

The blue syringe barrel indicates the remaining material volume. When your syringe is empty, only the white plunger shows.

### Bendable cannula

Easy-to-bend without kinking for better access.

### Easy to hold and inject

Triangle finger plate and plunger make it quick and easy to personalize your grip.

## Key benefits

- Virtually no bubbles or material “run-on”
- Easy-to-bend cannula for improved access
- Ergonomic design is easy to hold and inject
- Excellent adaptation, polish retention and wear resistance
- Versatile for a wide range of indications and techniques

## Can be warmed for injection molding

Warm up to 70°C (158°F) for up to one hour, up to 25 times.

## Clinical cases

3M™ Filtek™ Supreme Flowable Restorative offers a smooth transition from material to tooth for esthetic restorations.
