## Important notice

The mounting and use of the product described within this document assumes that the user has previous experience of this type of product and that it will be assembled by a competent professional according to product documentation. Before using this product, 3M recommends that the user completes some trials to validate the performance of the product for the application intended by the user.

All information and specification details contained within this document are specific to this particular 3M product and cannot be applied to other products or environments. Any action or use of this product in violation of this document is at the risk of the user.

Compliance with the information and specifications regarding the particular product described in this document does not exempt the user from compliance with additional guidelines (e.g., safety rules, procedures). Compliance with operational requirements especially in respect to the environment and usage of tools with this product must be observed. 3M is not responsible for the consequences of any violation of these rules which are beyond its decision and control.

Warranty provisions are provided with the sales contract documents consistent with applicable law.
