3M Food Safety

Dairy runs on a different clock.

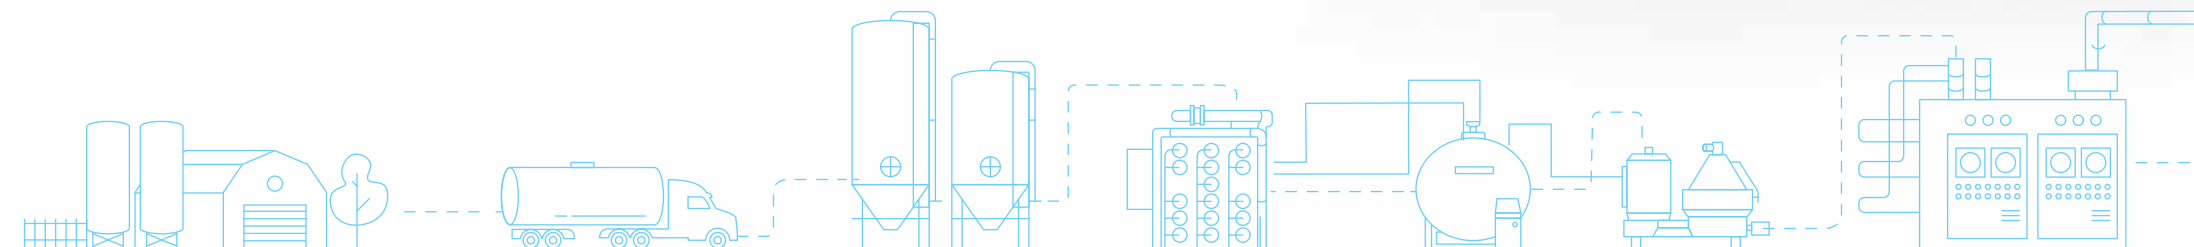

Cut time on testing.

Stay ahead with total solutions from 3M.

Keep dairy fresh and safe with fast, accurate results.

Manage every minute of the dairy clock. You need results and you need them fast. When you partner with 3M, you leverage the latest advances in food safety technology. 3M's rapid testing solutions lead the industry in accuracy and in fast results.

Browse dairy solutions at [3M.com.au/DairyProducts](https://www.3m.com.au/DairyProducts) (Australia) or [3M.co.nz/DairyProducts](https://www.3m.co.nz/DairyProducts) (New Zealand).

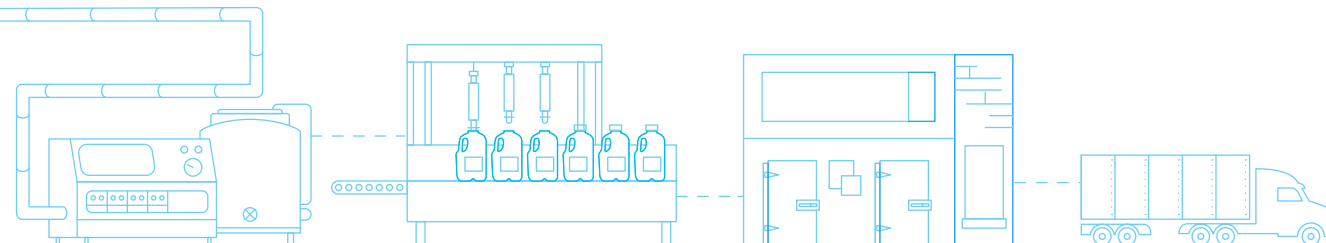

Streamline every step in your process.

Ensure food safety while managing your budgets with limited resources. Your team can learn how to use 3M testing products quickly. They are easy to use solutions that enable you to improve efficiency and productivity in your operations.

Global experience. Local support.

Bringing dairy products to the table faster and safely is a big responsibility – and we are here to help. Move forward with 3M Food Safety products and get the global technical support you need to protect your brand and mitigate risk.

Fluid

Powdered

Ice Cream

Cultured

Cheese

Stay ahead of the dairy clock with confidence.
