3M™ Professional Panel Wipe 34567

1) Part Numbers

34567

2) Description and end uses'

3M™ Professional Panel Wipe is a non-woven, dry wipe product designed for use in conjunction with a degreasing solvent in the preparation of panels.

It can also be used for heavy duty cleaning and a wide variety of wiping applications within the shop.

- Dense structure means virtually no lint. No non-woven product can be completely lint free, despite what the manufacturer claims
- Excellent absorbency means quick removal of surface liquids thus saving time and multiple cloths
- High strength when wet means reduced incidence of the cloth breaking and liquids soiling the user's hands. This does not remove the need for appropriate hand protection
- Paper on one side and polyester on the other maximises the effectiveness of applying solvent and removal of dirt
