3M™ Laser Markable Label Materials
for flexible and permanent labeling

Flexible and permanent product labeling with 3M™ Laser Markable Label Materials

Use 3M Laser Markable Label Materials to achieve a maximum degree of flexibility and efficiency

Within a single work step, all fonts and images can be produced as customized products in any shape. Upon request, you can easily integrate your customer-specific security features.

Moreover, the films are characterized by excellent adhesion to various difficult substrates. Signs made from this material can be removed from the protective paper and adhered exceptionally well. After bonding, they still offer a very high degree of destructibility.

Your advantages

- High flexibility when printing variable information
- High weather- and chemical-resistance
- Customer-specific security features
- Soft and smooth material – adapts to uneven surfaces and tight radii
- Very good handling during sign processing
- Release for the labeling of vehicles / vehicle parts by the Kraftfahrt-Bundesamt – KBA (German Federal Motor Transport Authority)

Areas of use

- Security signs that are regarded as official documents
- Secure labeling of original parts
- Complete sets of signs
- Variable formats even in small quantities
- High-performance signs
- Vehicle-related creation of signs for the automotive industry

Important notice:

The values presented above have been determined by standard test methods and are average values not to be used for specification purposes. Our recommendations on the use of our products are based on tests believed to be reliable but we would ask that you conduct your own tests to determine their suitability for your applications. Please take all safety and occupational health and safety regulations into account when using this product. All questions of liability relating to this product are governed by the terms of sale subject, where applicable, to the prevailing law.
